Instructions for Completing the Electronic Device Manufacturer Registration Form:

PLEASE NOTE: ALL FIELDS MUST BE COMPLETED. IF A FIELD DOES NOT APPLY,

Please explain the processes and methods used to recycle or reuse the covered electronic devices received from Michigan consumers. Examples of processes and methods include direct export to a recycler outside of the United States, outside of Michigan, or to a Michigan electronics handler that dismantles and segregates metal, plastic, and glass components; shreds metal and plastics; and grinds glass. Metal is sold to foundries and steel manufacturers, glass to glass manufacturers, and plastic to plastic manufacturers for producing new metal products or components of products. Please also identify materials that are disposed, including the disposal method (e.g. disposed of at a nonhazardous solid waste landfill). [Section 17303(2)(c)(iii)(B)]
