11. How do you provide information to consumers on how and where to return covered electronic devices?

Information on the collection and recycling of electronic devices is available on [www.lexmark.com/recycle](http://www.lexmark.com/recycle).

## TAKEBACK PROGRAM REPORT (include this information beginning with the first registration submitted after the implementation of the takeback program)

12. The total weight of the covered electronic devices received by the takeback program from consumers during the prior year:

0.4 Tons

13. The processes and methods used to recycle or reuse the covered electronic devices received from consumers:

Material is received and weighed. Each shipment is validated that it came from a covered entity and is a covered device from Michigan. Devices are sent to be de-polluted (batteries removed), the ink and toner sorted for return to manufacturer or disposal. Material removed from the devices during the de-polluting stage and are not returned to manufacturer are sent to a hazardous waste company for proper processing and disposal. Devices are then shredded and the various commodities are separated. Once separated, the commodities are put back into the commodities market for use in new products.

I, the undersigned registrant, swear and affirm, UNDER PENALTY OF LAW, that the statements contained herein are true and correct. I certify under penalty of law that the information contained on this form, to the best of my knowledge and belief, is true, accurate, and complete. I am aware that there are significant penalties for submitting false information.
