TAKEBACK PROGRAM CONSUMER CONTACTS

8a. What Web site address do you provide to consumers for information on your takeback program? www.wacom.com/ewaste

8b. If provided, what telephone number do you provide to consumers for information on your takeback program? 1-800-922-6613

TAKEBACK PROGRAM INFORMATION

9. Please describe your takeback program.

Wacom Technology Corporation has implemented a free to consumer mail-in take back program that can be accessed via the web at www.wacom.com/ewaste or 1-800-922-6613. The toll free number directs the customer to Wacom's Customer Care Center where a UPS shipping label is created and emailed (or otherwise sent) to the customer. The web access is fully automated with a connection to UPS that can print a UPS shipping label.

Consumers who wish to recycle their Wacom branded products can access the returns program through Wacom's website through the following steps:

1. Access the Wacom Technology Corporation's recycle web page - (www.wacom.com/ewaste),
2. Select the state in which they reside (in this case Michigan),
3. Wacom's mail back program link with UPS will open,
4. Once at the UPS site the user will:
 - a. complete a form that creates a shipping label that can be printed,
 - b. be directed to the closest shipping locations, and
 - c. learn how to prepare the product for proper shipping.

Wacom begins tracking the product once the customer completes the shipping label. The shipping destination is the closest recycling facility of one of the vendors Wacom has contracted with to handle recycling under the returns program. All products are tracked to the recycling facility at which time the facility is responsible for assuring the product is recycled/reused in a manner that complies with all local and federal laws and regulations including prohibition against disposal in landfills.

Wacom receives monthly reports from the recyclers concerning the weight of products recycled and certification of proper handling of all materials received.

Wacom publicizes reuse and recycle of its products with the following methods:

- via inserts in its products packaging,
- its website, and
- toll-free number.

10. What information do you provide to consumers on how and where to return covered electronic devices that are labeled with your name or brand label?

Information contained with the product directs consumers to the web or toll free number. From there all information on how and where to recycle is provided.

11. How do you provide information to consumers on how and where to return covered electronic devices?

Wacom publicizes reuse and recycle of its products with the following methods:

- via inserts in its products packaging,
- its website, and
- toll-free number.

TAKEBACK PROGRAM REPORT (include this information beginning with the first registration submitted after the implementation of the takeback program)

12. The total weight of the covered electronic devices received by the takeback program from consumers during the prior year:

0 Tons

13. The processes and methods used to recycle or reuse the covered electronic devices received from consumers:

The product is shipped outside of Michigan to Indianapolis, Indiana. Materials are reused if economically viable otherwise they are scrapped and recycled through appropriate channels for each type of material. Small amounts of material are not recyclable and are disposed of properly. Our recycler is licensed with federal and state authorities to recycle all materials in compliance with all applicable laws and in compliance with their certifications.

I, the undersigned registrant, swear and affirm, **UNDER PENALTY OF LAW**, that the statements contained herein are true and correct. I certify under penalty of law that the information contained on this form, to the best of my knowledge and belief, is true, accurate, and complete. I am aware that there are significant penalties for submitting false information.
