INTELLILUBE®

GREEN Automatic Single-Point Lubricators

Smart:

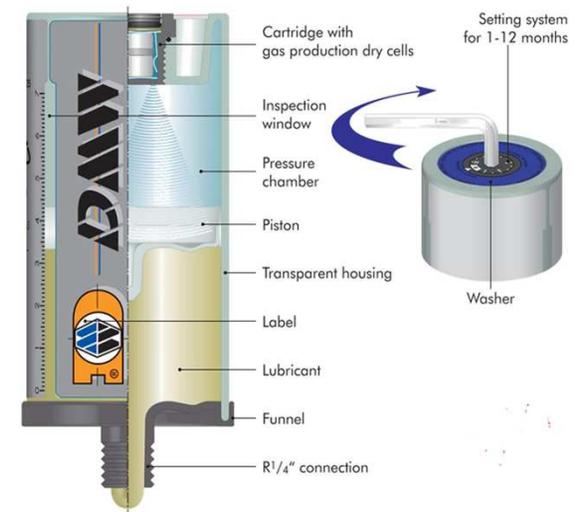

- Automatic—24/7/365
- No worries for up to one complete year
- Single-point application
- Most economical lubrication product of its kind on the market
- Constant, pre-measured lubricant reliably
- No over/under usage damage
- No costly repairs or production downtime
- Transparent inspection window
- Compatible with all NGLI greases and oils
- Allows for customer-specific lubricants
- Operates in temperatures from -4 to +131 F

User is Always in Control:

- Activated with hex key
- Programmed dispensing from 1-12 months

Engineered for Demanding Applications:

- Available in multiple sizes to fit anywhere
- Mounts in any position (with full line of accessory parts)
- Perfect for hard-to-reach and dangerous locations
- Use above and under water

Environmentally Friendly

- Easy
- Fully Disposable
- Produces No Hazardous Waste
- Battery Recycling
- PET Recycling

Recycle or Refill:

- Replaceable gas-generating cartridge
- Two-year shelf life
