The MAC Valves team is dedicated to environmental performance and is committed to continuous improvement. We voluntarily communicate portions of our environmental management system and pollution prevention goals to the community yearly. We value being a part of the Clean Corporate Citizen program and being a partner in the Michigan Business Pollution Prevention Partnership.

MAC Valves, Inc. is a global manufacturing leader in pneumatic and fluid valves, proportional valves, flow control and regulator technology. MAC was founded in 1948 with a focus on establishing and maintaining our position as the technological leader in our market, having since amassed over 80 patents related to pneumatic valves and their auxiliary components.

With our presence on four continents globally, and representation in every major industrial market in the world through the MDN (MAC Distributor Network), MAC has a global presence to support our customers need to keep their machines running profitability around the clock, around the world.

Our achievements include:

- ◆ 30% Reduction in machine oil usage
- ◆ Recycle & Reuse of machine oil
- ◆ 5% Reduction in VOC emissions
- ◆ 5% Reduction in Gas usage
- ◆ Replacement of 65% of light bulbs with t-8 lamps
- ◆ 10% Reduction in compactor pulls
- ◆ 5% Reduction in water usage
- ◆ 20% Reduction in solvent usage
- ◆ 10% Reduction in coolant usage
- ◆ Small Quantity Generator Status
