

Plate XI. Map of the Whitefish Point region, Chippewa County, Michigan.

Plate XIII. A. Lake Superior beach, looking east toward Vermilion, during a storm. Showing formation of temporary pools by waves.

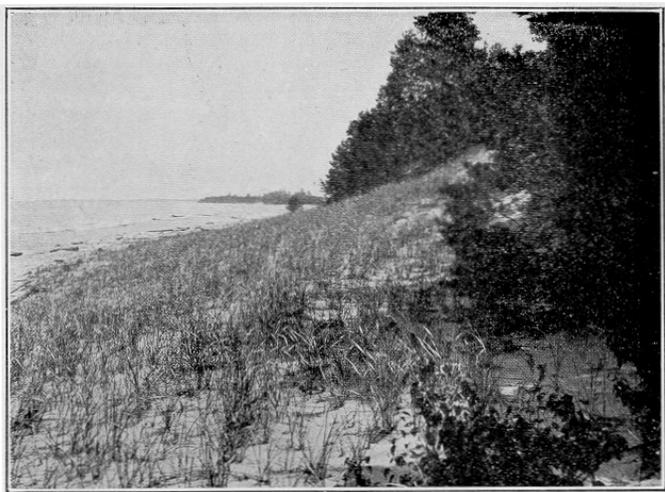

Plate XII. A. Lake Superior beach at Vermilion. Upper and lower beach shown; the latter with *Ammophila arenaria* zone, shown chiefly in the foreground.

Plate XIII. B. Small portion of Lake Superior beach showing pebble zone and small temporary pond.

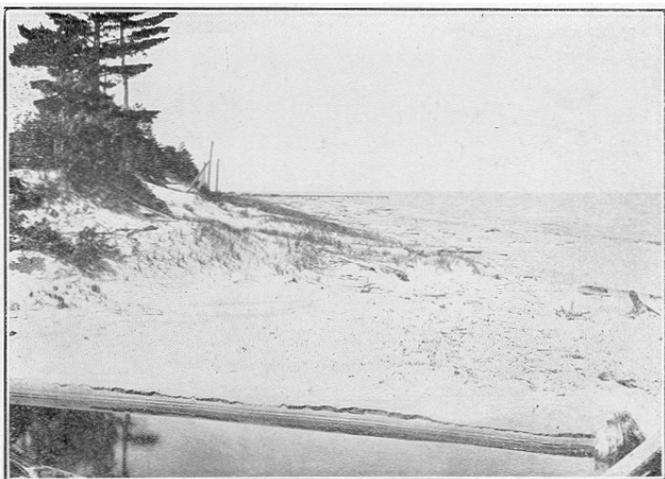

Plate XII. B. Lake Superior beach with sand ridge crossed by Cranberry Creek, just east of Vermilion.

Plate XIV. A. Lake Superior beach with dunes of the first sand ridge.

Plate XIV. B. Cranberry Creek (Station 30), looking north and down stream, showing a part of the beach pool formed by it (Station 31).

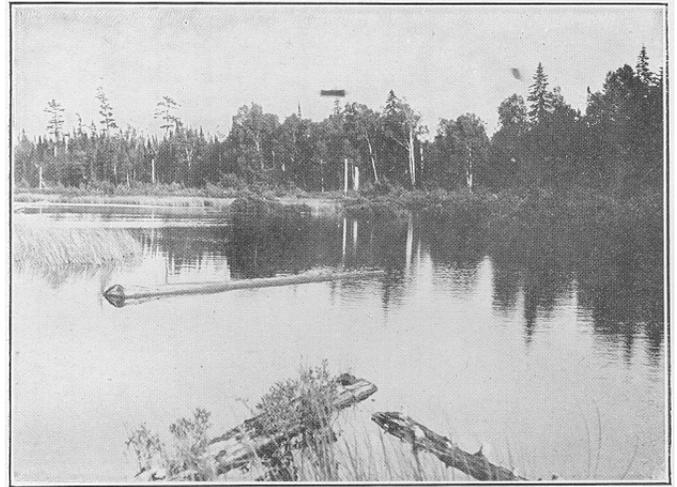

Plate XVI. A. Beach pond in the course of Mason's Creek.

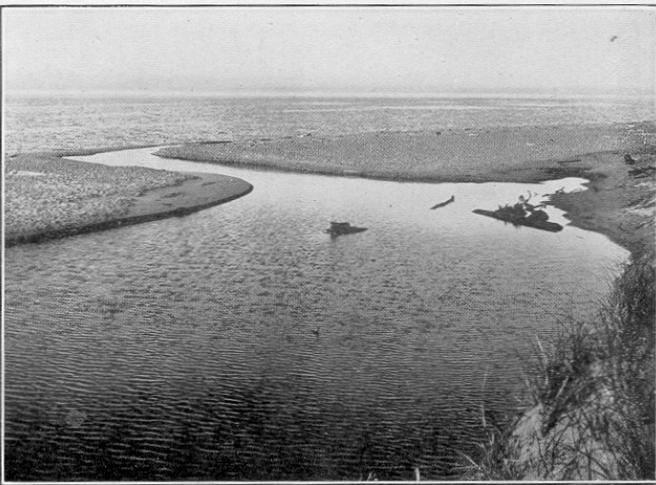

Plate XV. A. Pond on Lake Superior beach (Station 31) formed by Cranberry Creek.

Plate XVI. B. Marsh bordering Mason's Creek (Station 172) on Lake Superior beach.

Plate XV. B. Beaver dam and pond on Mason's Creek (Station 171).

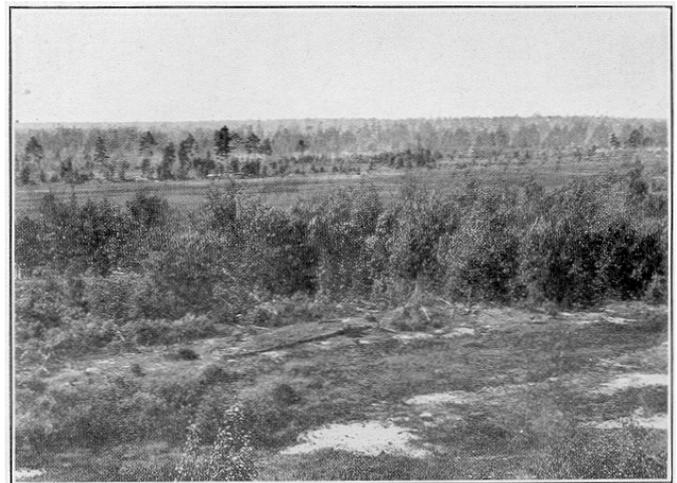

Plate XVII. A. Looking southwest from high sand dune near Station 101, showing marsh and sand ridges with upland in distant background.

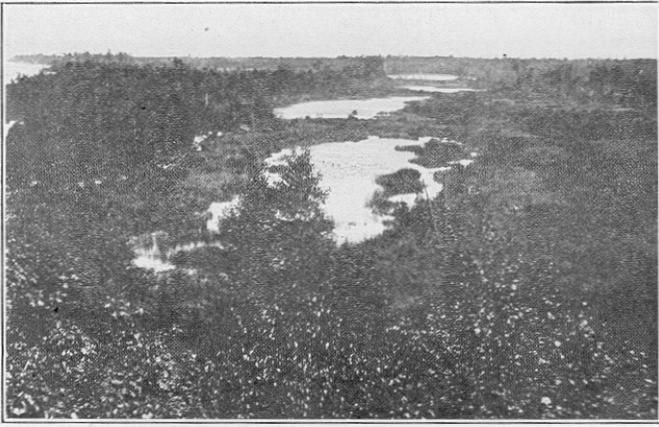

Plate XVII. B. Marsh Lakes, looking southeast from the high dune near Station 101.

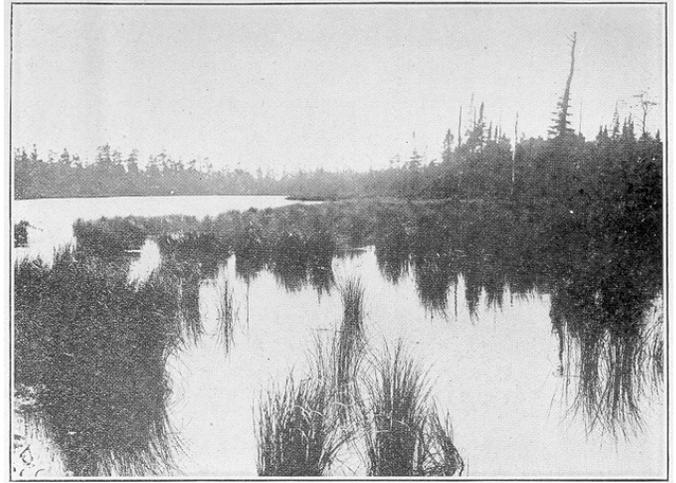

Plate XIX. A. Marsh bay of Beaver Lake (Station 55), looking southwest (lakeward).

Plate XVIII. A. Channel east from Beaver Lake (Station 90).

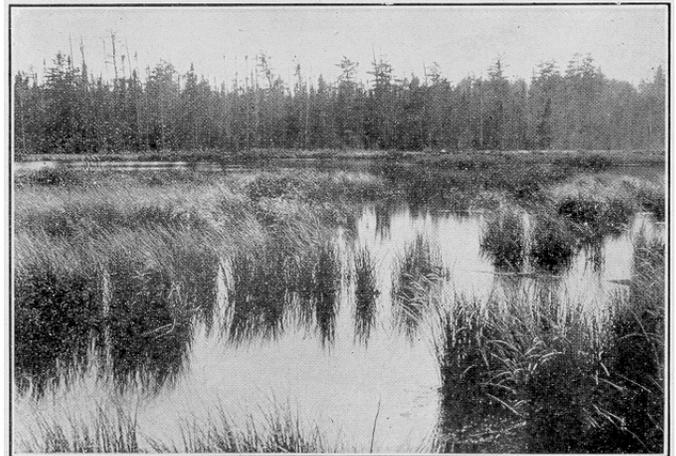

Plate XIX. B. The same, looking south.

Plate XVIII. B. Channel of Vermilion Lake (Station 25).

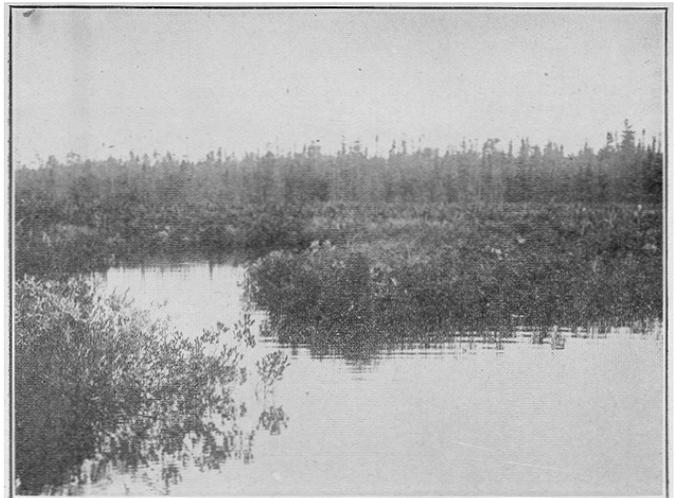

Plate XX. A. Marsh bay of Beaver Lake (Station 52), looking northeast.

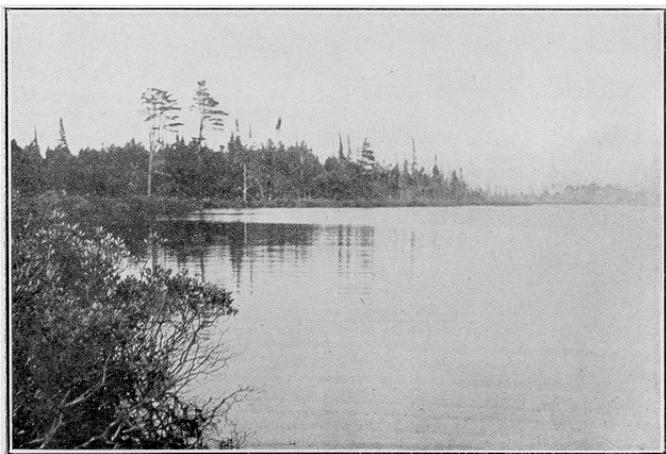

Plate XX. B. Northwest shore of Beaver Lake (Station 59), looking northeast.

Plate XXII. A. Station 85, Spruce Lake, looking south across the east end of the lake.

Plate XXI. A. Spruce Lake, looking northwest (Station 71).

Plate XXII. B. Marshy north shore of Vermilion Lake.

Plate XXI. B. Station 84, Spruce Lake, looking east. Floating mats of stonewort on the surface.

Plate XXIII. A. Small lake and wooded sand ridge about a half mile east of Vermilion (Station 106), looking northeast.

Plate XXIII. B. West end of the small lake shown in A. Station 101, looking east.

Plate XXV. A. Shelldrake Lake, looking southwest.

Plate XXIV. A. Mitten Lake, Station 116, looking east.

Plate XXV. B. Northwest shore of Shelldrake Lake, looking northeast (Station 142).

Plate XXIV. B. Vermilion Creek at Vermilion. Great blue heron feeding.

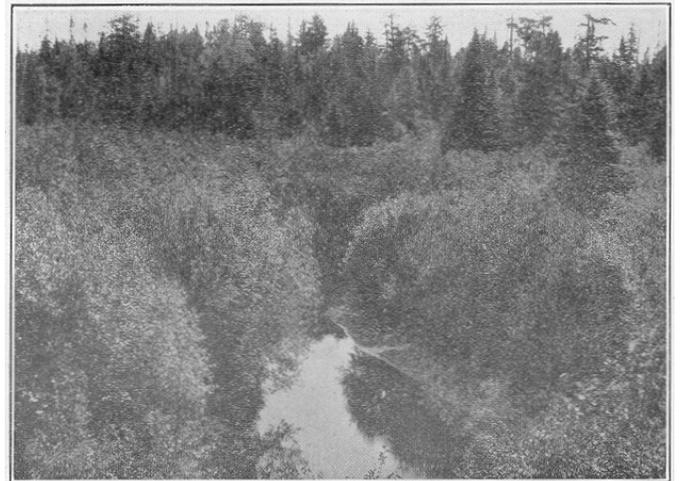

Plate XXVI. A. Shelldrake River and portion of wooded swamp, looking down stream from a high, north stream bank.

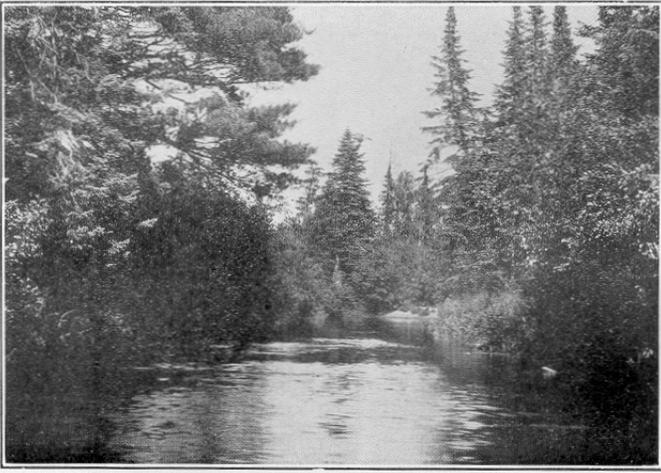

Plate XXVI. B. Portion of Shelldrake River just south of Vermilion.

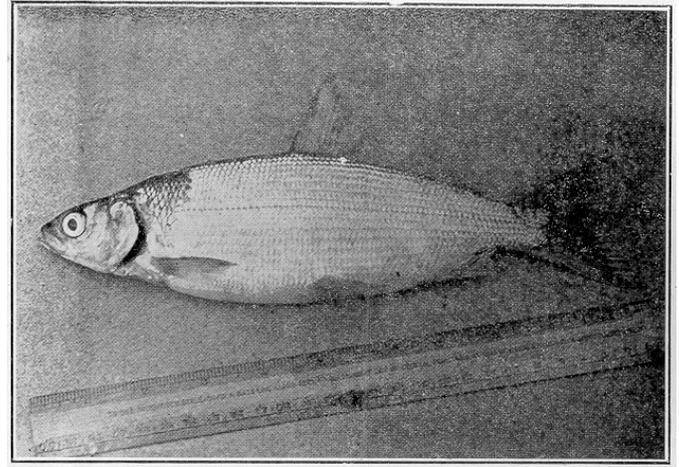

Plate XXVIII. A. Tullibee, *Leucichthys tullibee* (?) caught at Station 2, Lake Superior.

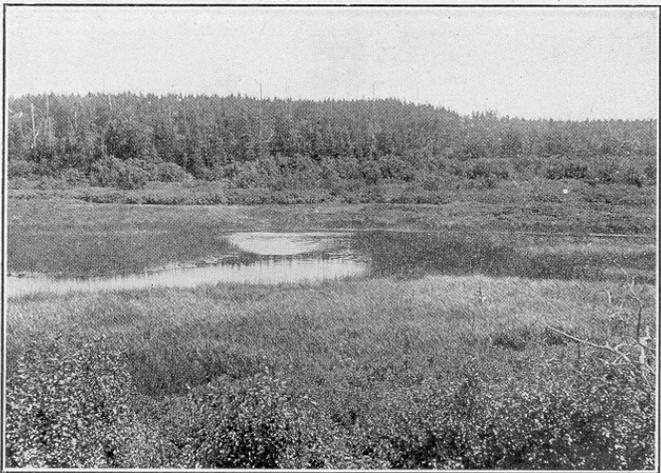

Plate XXVII. A. Shelldrake River just south of Shelldrake Lake, looking south.

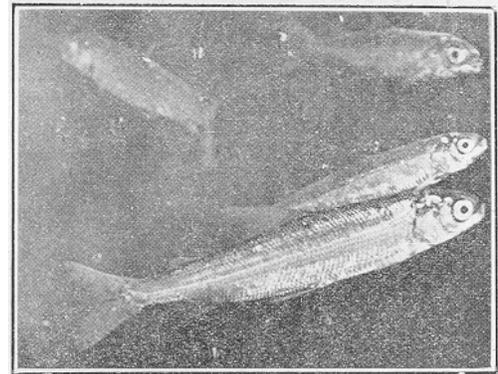

Plate XXVIII. B. Young whitefish, *Coregonus clupeaformis* (possibly *albus*), length of largest about three inches, caught at Station 1, on Lake Superior shoal.

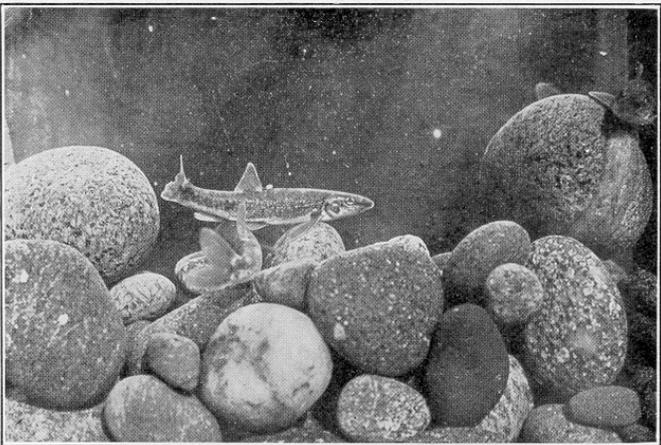

Plate XXVII. B. Long-nosed Dace, *Rhinichthys cataractae*.
