

Paint Clean-out Event

ADAC Automotive and ePaint

ADAC Automotive hosted a Paint Clean-out event where associates were encouraged to bring any unused paints and varnishes from home. ePaint, a company who repurposes paints from around the state and sells it at a discount to Habitat for Humanity, was able to collect two full cubic yard boxes full of material. The project reduced the amount of paint ending up in a landfill and any paint that could not be saved was commingled for beneficial reuse.
