

Tree Planting in Detroit

General Motors Detroit-Hamtramck Assembly and
The Greening of Detroit

Volunteers from GM Detroit-Hamtramck Assembly partnered with The Greening of Detroit to plant trees in the existing tree pits in various places around Detroit. There had once been Ash trees planted, but because of the Emerald Ash Borer they had to be removed. This project was a great success and helped to restore the neighborhood of 7 Mile and Mound's green infrastructure and to beautify East Grand Blvd.
