Initial Code-Date Report Form for Consumer Products

Relevant Section of the Michigan Consumer Products Rule and Address for submitting the form are given on page 2

Initial Code-Date Report Form for Consumer Products (cont'd.)

Administrative Requirements as Given in the Referenced Ozone Transport Commission (OTC) Model Rule:

Code-Dating. Each manufacturer of a consumer product subject to the rule shall clearly display on each consumer product container or package, the day, month, and year on which the product was manufactured, or a code indicating such date. The date or code-dating information shall be located on the container or inside the cover/cap so that it is readily observable or obtainable (by simply removing the cap/cover) without disassembling any part of the container or packaging. This date or code shall be displayed on each consumer product container or package no later than 12 months prior to the effective date of the applicable standard specified in the rule. No person shall erase, alter, deface or otherwise remove or make illegible any date or code-date from any regulated product container without the express authorization of the manufacturer. The requirements of this provision shall not apply to products containing no volatile organic compounds (VOCs) or containing VOCs at 0.10% by weight or less.

If a manufacturer uses a code indicating the date of manufacture for any consumer product subject to the rule, an explanation of the code must be filed with the State of Michigan, at the address given below, by July 1, 2007.

Address for submitting the Date Code form for Consumer Products Rule, R 336.1660
