APRIL 22, 2016

DEADLINE FOR PUBLIC COMMENT REGARDING LOUISIANA PACIFIC CORPORATION, NEWBERRY PLANT, NEWBERRY (SRN N0780), for the proposed draft permit for the proposed installation of a new trim board line and facility-wide federally enforceable permit limits for hazardous air pollutants (HAP) to below major source thresholds. The facility is located at 7299 North County Road 403, Newberry, Michigan. The public comment period and hearing, if requested, are to allow all interested parties the opportunity to comment on the proposed Permit to Install and the Department's proposed conditional approval. It has been preliminarily determined that the proposed installation of the new trim board line and the facility-wide federally enforceable permit limits for HAP will not violate any of the MDEQ's rules nor the National Ambient Air Quality Standards. Additionally, the new trim board line and facility-wide HAP limits will require revisions to Renewable Operating Permit (ROP) No. MI-ROP-N0780-2011. This public comment period meets the public participation requirements for a future administrative amendment to the ROP. The New Source Review and ROP public notice documents can be viewed at www.deq.state.mi.us/aps. If a public hearing is requested in writing by April 22, 2016, a public hearing will be held April 26, 2016 (see April 26 listing in this calendar). Written comments and/or a request for a hearing should be sent to Annette Switzer, Permit Section Supervisor, Michigan Department of Environmental Quality, Air Quality Division, P.O. Box 30260, Lansing, Michigan 48909. Information Contact: **Jeff Rathbun**, Air Quality Division, rathbunj1@michigan.gov or 517-284-6797.

PART II: CONFERENCES, WORKSHOPS AND TRAINING PROGRAMS

Conferences, Workshops, and Training

ANNOUNCEMENT – The DEQ’s Office of Environmental Assistance (OEA) now accepts Visa, MasterCard, and Discover for all DEQ/OEA workshop payments!

- APRIL 19, 2016** | **DEQ SOIL EROSION AND SEDIMENTATION CONTROL PLAN REVIEW & DESIGN (COMPREHENSIVE) TRAINING AND EXAM, MARQUETTE, MICHIGAN.** This training and exam is for individuals who have valid Construction Storm Water Operator Certificates and work for Part 91 Agencies where the individual may have soil erosion and sedimentation control plan review and design responsibilities. The training will cover the required components of a soil erosion and sedimentation control plan, the soil erosion and sedimentation control law, an overview of common best management practices for soil erosion and sedimentation control, and an exercise in plan review in design. Not all information in the exam is covered in the training, so participants are expected to have read and understand the information presented in the [“Certified Storm Water Operator and Soil Erosion and Sedimentation Control Plan Review & Design \(Comprehensive\) Manual.”](#) The exam is forty question and multiple choice. A score of 70% is required to pass and receive a certificate of training. Schedules can be found on the Web at www.michigan.gov/soilerosion and by clicking on the second bulleted link under the training header. **Cost: \$225. Registration Information:** to register, contact **Mitch Koetje**, WRD, 906-202-1464, or koetjem@michigan.gov and be prepared to provide your Construction Storm Water Operator certification number.
- APRIL 19-20, 2016** | **MICHIGAN SAFETY CONFERENCE, DEVOS PLACE, GRAND RAPIDS, MICHIGAN.** The Michigan Safety Conference is a two-day world class health and safety training event, held every Spring. Training is targeted at workplace health and safety issues. All businesses in Michigan are encouraged to send their employees responsible for health, safety and risk management operations. The DEQ will have speakers and an exhibitor table at this event. For more information, go to www.michsafetyconference.org/.
- APRIL 26, 2016** | **DUST AND ASBESTOS MANAGEMENT WORKSHOP, LAUREL MANOR, LIVONIA, MICHIGAN.** Fugitive dust from roads, surface lots, storage piles, and other sources contributes to air pollution. Additionally, asbestos from demolition activities can present environmental concerns if not properly handled. The DEQ will present this Dust and Asbestos Management Workshop to provide information on how to control fugitive dust at public and private facilities, lots, and roads as well as asbestos management at demolitions sites. To help comply with environmental requirements relating to dust and asbestos, attendees will receive an overview of particulate matter and asbestos air quality regulations, related health issues, and a profile of dust control methods, asbestos handling, approaches for developing solid fugitive dust plans, and success stories on dust management. This workshop is recommended for anyone dealing with fugitive dust issues, including municipal, county, or state road repair and maintenance; zoning board or local responsibility for site location, selection, or approval; owner/manager of an unpaved lot or salvage yard; concrete and asphalt crushing operations; trucking business; rail yard operations; sand blasting; building construction or demolition; quarry or mining operations; asphalt or concrete plant or terminal operations; and environmental consultants. **Cost: \$55** - includes continental breakfast and the *Managing Fugitive Dust* guidebook.

**April 28, 2016 - Energy Audits - Who? What? When? Why? How?
10:00 – 11:00 AM**

The Michigan Public Service Commission has studied and tracked the savings from energy efficiency measures for years and consistently find that for every dollar invested in energy efficiency, the investor saves almost \$4 in future energy expenses. The audit is a valuable tool to help define the scope of what is feasible. This Webinar will explore the reasons for energy audits, what different energy audit regimes can provide, and how to choose the right energy audit for your needs.

PROTECTING YOUR SHORELINE: A WORKSHOP FOR INLAND LAKEFRONT PROPERTY OWNERS, VARIOUS LOCATIONS, MICHIGAN. Natural shorelines provide multiple benefits to our inland lakes. Natural shoreline landscaping and bioengineered erosion control techniques can restore those benefits by reducing runoff, deterring geese, stabilizing soils and improving fish and wildlife habitat while maintaining aesthetically pleasing access to your lake. Already have rock or sea wall? Learn how to enhance those structures for the benefit of your lake. Workshop topics include: healthy lake ecosystems, designing natural landscapes on lake shorelines, problems with high impact landscape methods, use of native plants in shoreline landscapes, common inland lake Invasive species, and state of Michigan rules and regulations. Workshop hosted by Michigan State University Extension, in cooperation with the Michigan Natural Shoreline Partnership, including the DEQ. Pre-registration is required at: <http://events.anr.msu.edu/inlandlakepo16/>. Call 989-539-7805 if you are unable to register online.

WEBINAR: SUBMITTING WETLANDS, LAKES AND STREAMS APPLICATIONS IN MIWATERS. This Webinar will demonstrate how to locate and submit a variety of forms related to wetlands, lakes, and streams permits and programs. In particular, it will show how to: create an account; find a form such as the Joint Permit Application, WIP request, etc.; submit an application or request; include required and optional attachments; pay the applicable fee; check the status of your application after it has been submitted; edit the GIS site details of your site; and other relevant functions in MiWaters. This Webinar will be of interest to individuals that will need to apply for a permit related to activities covered under the MDEQ/USACE "Joint Permit Application" (JPA). The JPA package covers permit requirements pursuant to state and federal rules and regulations for construction activities where the land meets the water including wetlands, often referred to as the land/water interface. The application covers activities on or for: Wetlands, Floodplains, Marinas, Dams, Inland Lakes and Streams, Great Lakes Bottom Lands, Critical Dunes, and High Risk Erosion Areas. More information is available at www.michigan.gov/degevents.

Enforcement: I received a Violation Notice. Now what?

Getting a Violation Notice and thinking about potential enforcement action can be one of the most worrisome things a facility may have to work through with AQD staff. The purpose of this Webinar is to remove some of the unknowns from the enforcement process. AQD enforcement staff will discuss why a facility may get a Violation Notice and how best to work with AQD to resolve the violations. No one wants to get a Violations Notice, but this Webinar will prepare you to move forward with confidence.
