Questions or concerns should be directed to the MDEQ Office of Human Resources, P.O. Box 30473, Lansing, MI 48909.

# Potential to Emit Workbook

***The Potential to Emit Workbook – A Practical Guide to Calculating and Evaluating Your Potential to Emit Air Contaminants*** was developed by the Michigan Department of Environmental Quality (DEQ), Environmental Science and Services Division, Clean Air Assistance Program in conjunction with the Air Quality Division. The Workbook is designed to help you understand an important aspect of your business – your facility's *potential to emit* air contaminants. Your potential to emit (PTE) affects the regulatory status of your business, as well as its compliance requirements with both federal and state regulations.

This workbook will help you understand why determining PTE is important and take you step-by-step through calculating your facility's PTE. It will also help you evaluate your PTE to determine if you are a major or minor source of air pollution and which options will best lead you to compliance with the regulations.

For questions or concerns regarding this publication or for any information contained within, please contact the Environmental Assistance Center at (800) 662-9278. This workbook can be accessed on the Internet at [www.michigan.gov/deqair](http://www.michigan.gov/deqair) (select "Clean Air Assistance" then "Potential to Emit").

Note: This publication was developed for guidance purposes only. Since every situation cannot be addressed in this book, the DEQ, Air Quality Division (AQD) may require that you use an alternative method to calculate your PTE. If you have specific questions related to calculating the PTE for your facility, it is recommended that you contact your AQD district office for guidance. District office contact information can be found in Appendix E of this workbook.

For more information about calculating PTE, including U.S. Environmental Protection Agency guidance and several PTE calculation worksheets, visit the Clean Air Assistance Program's Potential to Emit website: [www.michigan.gov/deqair](http://www.michigan.gov/deqair) (select "Clean Air Assistance" then "Potential to Emit").

# TABLE OF CONTENTS

## Part 1: Introduction to Potential to Emit

What is the purpose of this document? .....	1-1
What is <i>potential to emit</i> ? .....	1-1
Why is applicability to many regulations based on my facility's PTE and not actual emissions? .....	1-1
What pollutants are regulated? .....	1-2
What does it mean if my facility is a "major source" of a pollutant? .....	1-3

## Part 2: How to Calculate Potential to Emit

Step 1 – Conduct a Facility Inventory .....	2-1
Do I Need to Include Fugitive Emissions? .....	2-3
Insignificant Activities .....	2-4
Step 2 – Categorize Emission Sources (permitted, grandfathered, or exempt) ...	2-8
Step 3 – Identify Legally Enforceable Limitations .....	2-10
Permit Conditions .....	2-10
State and Federal Rules .....	2-10
Step 4 – Identify the Emission Calculation Methods You Will Use .....	2-13
Legally Enforceable Limitations .....	2-13
Performance Test Data .....	2-14
Mass Balance .....	2-15
Emission Factors .....	2-15
Step 5 – Gather Data About Each Emission Source .....	2-18
Step 6 – Calculate the PTE for Each Emission Source .....	2-19
The PTE Equation .....	2-19
Bottlenecks .....	2-20
Determining What Pollutants are Emitted .....	2-20
COATING BOOTHS 1 – 3 .....	2-21
OVEN .....	2-22
MAINTENANCE BOOTH .....	2-23
PRINTING .....	2-24
287(C) BOOTH .....	2-25
COLD CLEANERS .....	2-26
CLEANUP .....	2-27
GRINDER .....	2-28
WELDING .....	2-29
BOILER .....	2-30
GENERATOR .....	2-31
Step 7 – Calculate the PTE for the Facility .....	2-32

**Part 3: Major or Minor Source**  
Major Source Requirements ..... 3-2

**Part 4: How to Avoid Being a Major Source**  
Rule 208a ..... 4-1  
Opt-Out Permit ..... 4-2  
How to Complete an Opt-Out Permit Application ..... 4-3

**APPENDIX A: Rules Cited**

**APPENDIX B: Potential to Emit Summary Worksheet**

**APPENDIX C: Rule 208a Initial Registration**

**APPENDIX D: Permit to Install Application**

**APPENDIX E: Michigan Department of Environmental Quality, District Offices**

**APPENDIX F: Resources**
