

## Applying for a Drinking Water Revolving Fund Loan

The first step towards obtaining a DWRF loan is the submittal of a complete project plan to the DEQ Revolving Loan & Operator Certification Section by May 1st for funding in the subsequent fiscal year. A municipality interested in DWRF loan funding should first contact our staff for specific guidance before project planning begins. Please note that you will need to follow the instructions provided in the DWRF Project Plan Preparation Guidance to complete a project plan. Final plans submitted by May 1st must be accompanied by a completed Project Plan Submittal Form. Both this form and the plan preparation guidance can be found on our **Forms and Guidance** page.
