The **Introduction to Michigan Air Emissions Reporting System (MAERS) Workshop** is offered annually to help companies submit their MAERS reports electronically using the MAERS software. **This year's *Introduction to MAERS Workshop* will again feature hands-on computer training!**

Workshop participants will be taken step by step through the MAERS version 2008.0.0 software in an interactive, hands-on format. This workshop has been designed for those with little or no experience using the MAERS software and anyone who may need a review of MAERS basics.

Introduction to MAERS Workshop participants will learn:

-  MAERS software basics, including installation, navigation, and how to download your database.
-  How to complete the electronic forms and submit your report to the DEQ.
-  How to avoid common mistakes encountered when completing and submitting your MAERS report.

Workshop attendees will receive the updated "*MAERS Workbook*" and other guidance materials.

A limited number of computers are available at the Kalamazoo and Lansing sessions, so register early. Space will be available for attendees who wish to bring their own laptops to these locations. For questions about workshop content, contact James Ostrowski at 517-241-8057 or Email at ostrowskij2@michigan.gov.
