

## Drinking Water Laboratory Certification Fees for FY 2010-2011

Drinking water laboratory certification fees for fiscal year 2010-2011 are shown below. New fees reflect a 0.2% INCREASE over last year's fees. The annual adjustments, which are based on the Detroit Consumer Price Index, are required by the Michigan Safe Drinking Water Act, 1976 PA 399, as amended.

<u>Area of Certification</u>	<u>2009-2010</u>	<u>2010-2011</u>
Microbiology	\$2383.59	\$2388.36
Inorganic Chemistry	\$3571.72	\$3578.87
Organic Chemistry	\$3571.72	\$3578.87
Lead and Copper	\$1789.49	\$1793.07
Limited Wet Chemistry (Cyanide, Fluoride, Nitrate, Nitrite, and Sulfate)	\$762.72	\$764.25
Inorganic and Organic Chemistry (both) or either with Microbiology	\$4466.44	\$4475.38
Microbiology, Inorganic Chemistry and Organic Chemistry	\$6285.31	\$6297.88
Microbiology and Limited Wet Chemistry	\$3146.30	\$3152.60

Notes:

1. Inorganic chemistry includes all trace metals, cyanide, fluoride, nitrate, nitrite, and sulfate.
2. Organic chemistry includes all TTHMs, VOCs and SOCs.
3. Limited wet chemistry requires concurrent certification for microbiology.
4. Laboratories may seek certification for any or all of the contaminants listed under limited wet, inorganic or organic chemistry.
5. Microbiology requires certification for total coliform and either fecal coliform or E.coli. Certification for heterotrophic bacteria is mandatory for some facilities, such as surface water treatment plants.
