WATER RESOURCES DIVISION

REQUEST FOR AMBIENT WATER QUALITY DATA FOR MICHIGAN SURFACE WATERS. The Water Resources Division (WRD) is requesting ambient water quality data (chemical, biological, or physical) that has been obtained by other governmental agencies, nongovernmental organizations, or the public for Michigan surface waters from January 1, 2013, through December 31, 2014. All water quality data submitted to the WRD by March 1, 2015, will be evaluated and potentially used to help prepare Michigan's 2016 Integrated Report. The WRD prepares and submits a biennial report to the United States Environmental Protection Agency to satisfy the listing requirements of Section 303(d) and the reporting requirements of Sections 305(b) and 314 of the Clean Water Act. The Integrated Report describes the status of water quality in Michigan and includes a list of water bodies that are not attaining Michigan Water Quality Standards and require the establishment of pollutant Total Maximum Daily Loads. All ambient water quality data (including associated quality assurance/quality control information) provided for Michigan surface waters may be sent to Sam Noffke, Michigan Department of Environmental Quality, WRD, P.O. Box 30458, Lansing, Michigan 48909-7958; or if the ambient water quality data is in electronic form please email at noffkes@michigan.gov. If submitting electronic data, please let Mr. Noffke know if the data can be downloaded from a secondary location (e.g., WQX) or if the data will come directly from the submitter. Contact: **Sam Noffke**, WRD, at 517-284-5554.

PUBLIC HEARING ON PROPOSED REVISIONS TO RULES PROMULGATED UNDER SECTION 5, RULES, OF THE SAFE DRINKING WATER ACT, 1976 PA 399, AS AMENDED (ACT 399). The Office of Drinking Water and Municipal Assistance (ODWMA) will conduct a public hearing on Wednesday, February 18, 2015, at 10:00 a.m. on proposed revisions to the administrative rules promulgated under Section 5 of Act 399. The rules are identified as R 325.10101 through R 325.12820. These rules adopt recently promulgated amendments to the national primary drinking water regulations required in order to maintain primary enforcement authority for the Public Water System Supervision Program. These rules also address cross connection control, operator certification, asset management, and water quality reports for nontransient noncommunity water systems that are K-12 schools or daycare centers. The public hearing will be held in the Patriot Conference Room, Constitution Hall, 525 West Allegan Street, Atrium, North Tower, Lansing, Michigan 48933. The proposed rules (ORR 2014-023 EQ) can be downloaded from the Internet through the Office of Regulatory Reinvention at www.michigan.gov/orr. Click on "Pending Rule Changes" in the left column. Under "Rules by Department," click on "Environmental Quality." Scroll to 2014-023 EQ and click on "Revision Text." Copies of the rules may also be obtained by contacting the Department of Environmental Quality (DEQ), ODWMA, Environmental Health Section, P.O. Box 30241, Lansing, Michigan 48909-7741, or by telephone at 517-284-6535. Written comments will be accepted until February 25, 2015, and should be mailed to the above address. Information Contact: **Ms. Carolyn Looney**, ODWMA, 517-284-6535; looneyc@michigan.gov. Decision-maker: **DEQ Director**.

FEBRUARY 25, 2015

DEADLINE FOR PUBLIC COMMENT ON A NO FURTHER ACTION REPORT FOR THE WEST YARD PORTION OF CSX'S MAIN SWITCHING YARD, SAGINAW, SAGINAW COUNTY. Written comments are being accepted on a No Further Action (NFA) Report for the West Yard portion of CSX's Main Switching Yard, a site of environmental contamination located at 750 North Washington Street in Saginaw, Michigan. The area of the facility addressed by this NFA is

bordered to the north by Kirk Street, North Third Avenue to the east, Potter Street to the south, and North Washington Avenue to the west. The Property has operated as a railroad yard from the late 1800's until the present time. The NFA describes the response activities completed at the Property to address historical environmental impacts commonly associated with railroad yard activities. Soil and shallow groundwater are contaminated with metals and heavy petroleum products, which will not allow unrestricted use of the property. The NFA proposes addressing the remaining contamination with property use restrictions. The proposed on-site restrictions include limiting property use to non-residential, prohibiting the use of on-site groundwater for consumption or irrigation, and placing limits on future building construction. Perimeter fencing will be maintained in good repair to restrict unauthorized access to the facility. The NFA Report is available for review at the Hoyt Library, 505 Janes Avenue, Saginaw, Michigan, and is also available for review during normal business hours at the Michigan Department of Environmental Quality's Saginaw Bay District Office, 401 Ketchum Street, Suite B, Bay City, Michigan. Written comments should be mailed prior to February 25, 2015, to Rick Parson, DEQ, Remediation and Redevelopment Division, 401 Ketchum Street, Bay City, Michigan 48708. Information Contact: **Rick Parson**, Remediation and Redevelopment Division, 989-894-6252 or email at: parsonr@michigan.gov

MARCH 2, 2015

DEADLINE FOR PUBLIC COMMENT REGARDING MOONLIGHT INDUSTRIES, COMSTOCK PARK, KENT COUNTY, for the proposed draft permit for the proposed request for facility-wide federally enforceable permit limits on hazardous air pollutants to below major source thresholds. The facility is located at 5320 West River Drive NE, Comstock Park, Michigan. The New Source Review public notice documents can be viewed at www.deq.state.mi.us/aps/cwerp.shtml. If a public hearing is requested in writing by March 2, 2015, a public hearing will be held March 5, 2015 (see March 5 listing in this calendar). Written comments and/or a request for a hearing should be sent to Cindy Smith, Acting Permit Section Supervisor, Michigan Department of Environmental Quality, Air Quality Division, P.O. Box 30260, Lansing, Michigan, 48909. Information Contact: **Nick Zabrodsky**, Air Quality Division, zabrodskyn@michigan.gov or 517-284-6807.

MARCH 4, 2015
6:30 p.m.

PUBLIC MEETING ON THE PROPOSED DESIGNATION OF HIGH-RISK EROSION AREAS IN CHIPPEWA COUNTY-RESCHEDULED. The meeting previously scheduled for February 2, 2015, has been rescheduled and will be held on March 4, 2015, at Lake Superior State University, 650 West Easterday Avenue, Sault Ste. Marie, Michigan 49783, in the Ontario Room of the Cisler Center beginning at 6:30 p.m. A campus parking pass for the meeting may be obtained from Kate Lederle, lederlek@michigan.gov. The Water Resources Division staff will discuss the findings and implications of a recent erosion study of the Lake Superior shoreline of Chippewa County. The study may result in regulatory changes affecting specific properties. This meeting is intended for shoreline property owners and local officials in Chippewa County. Meeting participants are encouraged to preview the preliminary High Risk Erosion Area Update maps for Chippewa County at www.michigan.gov/shorelands. The High-Risk Erosion Area (HREA) program identifies rapidly eroding coastal shorelines and establishes setback requirements for construction in these hazard areas to prevent property loss. The proposed changes in the HREAs are the result of a recession rate study conducted on August 20, 2014, to identify changes in the long-term rate of erosion pursuant to R 281.22 (22) of the Great Lakes Shorelands Administrative Rules promulgated pursuant to Part 323, Shorelands Protection and Management, of the Natural Resources and Environmental Protection Act, 1994 PA 451 as amended (NREPA). The study identified shorelines where recession is occurring at an average rate of at least one foot per year over a minimum of 15 years. A longer study time period was used when technically possible to span a wider range of water levels and shoreline fluctuations. The original study for Chippewa County was conducted in 1982. Written comments sent to Department of Environmental Quality, Water Resources Division, Attention: Kate Lederle, P.O. Box 30458, Lansing, MI 48909-7958 or email lederlek@michigan.gov will be accepted until 5:00 p.m. April 3, 2015. Information Contact: **Kate Lederle**, Water Resources Division, 517-285-5564; lederlek@michigan.gov.

MARCH 20, 2015

DEADLINE FOR PUBLIC COMMENT REGARDING PROPOSED MINOR PROJECT CATEGORIES FOR ACTIVITIES IN INLAND LAKES AND STREAMS, WETLANDS, AND THE GREAT LAKES. Pursuant to Part 301, Inland Lakes and Streams, Part 303, Wetlands Protection, and Part 325, Great Lakes Submerged Lands, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, the MDEQ's Water Resources Division is proposing new and modified Minor Project (MP) categories. These categories are for activities that are similar in nature, will cause only minimal adverse effects when performed separately, and will have only minimal cumulative adverse effects on the environment. The intent of these categories is to allow better coordination between applicable statutes and to provide clarity on the requirements needed to be met for each category. Permit applications made for these types of activities may be processed in an accelerated manner without the issuance of an individual public notice or public hearing. The purpose of this public notice is to provide an opportunity for public review and comment prior to issuance of the MP categories. The proposed MP categories can be found at www.michigan.gov/wetlands. Written comments should be submitted to Amy Lounds at loundsa@michigan.gov or Michigan Department of Environmental Quality, Water Resources Division, P.O. Box 30458, Lansing, Michigan 48909-7958. All comments must be received by March 20, 2015. Information Contact: **Amy Lounds**, Water Resources Division, loundsa@michigan.gov, at 517-284-5530.

COMPOSTING OPERATIONS: REGULATIONS AND BEST MANAGEMENT PRACTICES WORKSHOP, COMFORT INN & SUITES AND CONFERENCE CENTER, MT. PLEASANT, MICHIGAN. The Michigan Department of Environmental Quality, in partnership with the Michigan Recycling Coalition, is pleased to offer a Composting Operations Workshop, designed to provide businesses and local officials involved with composting operations the informational tools and training needed to operate a larger scale operation in Michigan. The workshop will provide information about composting basics and address complex issues such as facility siting, operations, trouble shooting, and marketing. A key focus of the training will be on state regulations that affect composting operations, including important water regulations that composting operations must comply with. The full-day training includes lunch, materials, and valuable networking time. All attendees will receive a copy of the *Michigan Compost Operator Training Guidebook*. Businesses and municipalities that compost or are thinking about providing composting services should attend this valuable training. Consultants and local officials interested in learning more about what a facility needs to know to comply with state regulations will benefit from the information and networking opportunities provided at this workshop. Updated workshop information is available on the Web at www.michigan.gov/deqworkshops, click on "DEQ Workshops."
