**OFFICE OF THE  
GREAT LAKES**

**PUBLIC NOTICE: MICHIGAN COASTAL ZONE MANAGEMENT PROGRAM ROUTINE**

**PROGRAM CHANGE.** The Michigan Coastal Zone Management Program (MCZMP), in the Office of the Great Lakes, Michigan Department of Environmental Quality (MDEQ), was approved by the National Oceanic and Atmospheric Administration (NOAA) in 1978, pursuant to Section 306 of the Federal Coastal Zone Management Act of 1972 (P.L. 109-58). The MCZMP, as approved, includes enforceable policies involving the management and protection of the Great Lakes coastal zone in Michigan that are contained in several State statutes and administrative rules. To keep the MCZMP current, it is occasionally necessary to update the description of those enforceable policies to reflect legislative amendments, rule revisions, and similar actions.

Federal Regulations (15 CFR 923.84) require that such changes to an approved State Coastal Management Program be submitted to the federal Office of Ocean and Coastal Resource Management (OCRM), NOAA, as a Routine Program Change (RPC). The MDEQ is submitting the following as a RPC of the MCZMP:

Repeal of the Michigan Environmental Protection Act, 1970 Public Act 127 and subsequent codification as Part 17, (Michigan Environmental Protection Act), of the Natural Resources and Environmental Protection Act, 1994 Public Act 451, as amended. These changes constitute minor refinements in the State law addressing environmental protection litigation. The changes maintain a high level of resource protection.

The State considers the submission to be a RPC and has requested OCRM's concurrence in that determination. Any person wishing to comment on whether or not the action does or does not constitute a RPC of the MCZMP may do so by sending written comments to Ms. Joelle Gore, Office of Ocean and Coastal Resource Management, 1305 East-West Highway, Silver Spring, Maryland, 20910, or [Joelle.Gore@noaa.gov](mailto:Joelle.Gore@noaa.gov) . Comments must be sent within three weeks of the date of publication of this notice. For additional information, contact **Ronda Wuycheck**, Chief, Michigan Coastal Zone Management Program, at (517) 284-5040 or at [wuycheckr@michigan.gov](mailto:wuycheckr@michigan.gov) . The full text of the RPC submission, titled "Routine Program Change Concurrence Request: Enforceable Policies for Environmental Protection Litigation," is available for viewing and downloading through a link on the MCZMP Web page at [www.michigan.gov/coastalmanagement](http://www.michigan.gov/coastalmanagement) .

**WASTE CHARACTERIZATION WORKSHOPS, VARIOUS LOCATIONS, MICHIGAN.** The DEQ is hosting two workshops to explain the process of characterizing business waste. The Waste Characterization Workshop will expand on the basic concepts and principles provided in the [Introductory Webinars](#) and the Waste sessions featured at the upcoming [2014 Michigan Environmental Compliance Conference](#). This half-day workshop will focus on hazardous and liquid industrial waste and will provide information on the basic waste characterization concepts, including practical details to use when evaluating any waste. Environmental, health, and safety professionals at small quantity and large quantity generators of hazardous waste and anyone who manages waste for their business or institution will benefit from attending this training.
