PUBLIC HEARING ON PERMIT APPLICATION SUBMITTED BY TORCH LAKE INDUSTRIES INC., MDEQ FILE NUMBER 13-31-0070-P. The Water Resources Division will hold a public hearing on Tuesday, June 24, 2014, at 6:30 p.m., at the Schoolcraft Township Hall, 226 Front Street, Lake Linden, Michigan 49945. The applicant proposes to excavate existing dry stamp sand deposit and dredge submerged stamp sands (historic mine waste) from Lake Superior bottomlands within an area reaching from the north Traverse River breakwall at the south end, to the 31 West - 30 West Range line at the north end;

- Dredging to occur over a 5-year time period, with work phased by year, and located in a separate section of the beach each year;
- Construct a temporary access road on the dry stamp sand deposit in order to enable transport of dredged sands from the excavation location to the "Coal Dock" area located in Section 35, T55N, R31W (former Wolverine & Mohawk Mine Coal Dock);
- Temporarily store and dewater stamp sand near active dredging locations and near the Coal Dock area in preparation for loading onto a barge;
- Load stamp sand onto barges docked within the Coal Dock area using a mechanical conveyor staged on either side of the existing open water area; and
- Dredge a 100-foot wide by 25-foot deep shipping channel and mooring location within the former Coal Dock area in order to accommodate ingress/egress and dockage of barges. The total amount of dredging associated with excavation/dredging of the dry stamp sand deposit and submerged stamp sands, as well as construction of the Coal Dock mooring facility, is estimated to be 2,155,000 cubic yards below the OHWM, for a 5-year time period (a 5-year schedule of work listed by affected riparian, which includes activity type, is attached to the Public Notice).

The purpose of this hearing is also to secure the views of interested persons concerning application for a bottomlands conveyance (private use agreement); MDEQ File LS 061, under Part 325, Great Lakes Submerged Lands, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended. The applicant proposes:

- A private use agreement to 46.1 acres of Lake Superior public trust bottomlands offshore of Coal Dock Road, Sherman Township, Keweenaw County, for the staging of construction equipment (excavators, loaders, trucks, a conveyor, etc.) and construction of a barge mooring facility. ANNOUNCEMENT – The DEQ’s Office of Environmental Assistance (OEA) now accepts Visa, MasterCard, and Discover for all DEQ/OEA workshop payments!

MONTHLY 2014

2014 MONTHLY CONSTRUCTION STORM WATER OPERATOR/SOIL EROSION INSPECTOR TRAINING, VARIOUS LOCATIONS, MICHIGAN. The DEQ Water Resources Division will be hosting training and exams for Certification as a Construction Storm Water Operator. These half-day sessions will include a training video outlining inspector/certified operator requirements, best practices for soil erosion and sedimentation control, and common compliance problems found on construction sites. Not all information on the test is included in the training, so participants are expected to have read and understand the information presented in the [“Certified Storm Water Operator and Soil Erosion and Sedimentation Control Comprehensive Manual”](#) chapters 1-5. The training will be followed by a fifty question, multiple choice exam. A score of 70% is required to pass and become certified. Complete Training and Exam schedules can be found on the web at www.michigan.gov/soilerosion and by clicking on the first link under the training header. **Cost: \$95.** Information Contact: **Sarah Ehinger**, WRD, 269-567-3515, or ehingers1@michigan.gov. To register, determine the training date and location you would like to attend and contact the [district staff person](#) for that location.

WASTE CHARACTERIZATION WORKSHOPS, VARIOUS LOCATIONS, MICHIGAN. The DEQ is hosting two workshops to explain the process of characterizing business waste. The Waste Characterization Workshop will expand on the basic concepts and principles provided in the [Introductory Webinars](#) and the Waste sessions featured at the upcoming [2014 Michigan Environmental Compliance Conference](#). This half-day workshop will focus on hazardous and liquid industrial waste and will provide information on the basic waste characterization concepts, including practical details to use when evaluating any waste. Environmental, health, and safety professionals at small quantity and large quantity generators of hazardous waste and anyone who manages waste for their business or institution will benefit from attending this training. Topics will include: point of origination or when a waste first becomes subject to regulation; hazardous waste exclusions, where they are cited, and when you can use them; how to determine whether your waste meets the land disposal restrictions, needs to be treated before disposal, and how to determine the underlying hazardous constituents in your waste; how to determine when a listing applies and when generator treatment is an option; and how to collect random samples, what analysis is required, and when you can use less costly analysis method. Although solid waste will not be covered in the presentations, technical staff will be available on site. Updated workshop information is available on the Web at www.michigan.gov/deqworkshops, click on "DEQ Workshops." EVERYTHING YOU ALWAYS WANTED TO KNOW ABOUT STACK TESTING, DTE EDISON CENTER, ANN ARBOR, MICHIGAN. Compliance stack testing is an integral part of many air regulations and Permits, however, the details of this important task are often challenging to navigate. Please join the East Michigan Chapter of the Air & Waste Management Association for an interactive and comprehensive Workshop designed to tackle the topic of stack testing in its entirety, including why a test is performed, what is required of the different parties involved (and what their expectations should be), and what is actually measured and why. Additionally, a discussion on "Lessons Learned" will be presented. Mr. Tom Maza, DEQ Test Supervisor, and Mr. Mark Grigereit, Principle Engineer – Stack Testing, of DTE Energy, will be conducting this important Workshop. Together these gentlemen will provide insight from both a regulatory and industry perspective. Mr. Maza has 20 years of experience planning, observing and reviewing air emission tests for the Michigan AQD, and Mr. Grigereit has over 25 years of relevant field testing experience. Space is limited, pre-registration is required. The cost of the workshop is \$25 (AWMA members) and \$35 (non-members). Registration instructions can be found on the East Michigan AWMA website at: www.emawma.org and Workshop questions can be directed to **Jennifer Calnen** at Jennifer.Calnen@GZA.com.

WEBINAR: MICHIGAN'S NEW WETLAND MITIGATION BANKING FUND PROGRAM. In an effort to further promote wetland banking in Michigan, the legislature has enacted a new innovative approach to increase the establishment of wetland banks by developing a Wetland Mitigation Bank Funding Program (WMBF). The WMBF provides grants and low interest loans to eligible municipalities interested in developing a wetland mitigation bank. The primary purpose of the

program is to promote the development of bank sites in areas that don't currently have existing markets and available credits. This webinar will provide information on this new program, and provide an opportunity for municipalities and consultants and other interested parties to ask questions and provide feedback on program materials. Grant and Loan applications under the WMBF will start being accepted on July 1, 2014. Updated webinar information and registration is available on the Web at www.michigan.gov/degworkshops, click on "DEQ Webinars." 2014 MICHIGAN GREEN CHEMISTRY AND ENGINEERING CONFERENCE: CULTIVATING NEXT GENERATION SOLUTIONS, MSU KELLOGG CONFERENCE CENTER, EAST LANSING, MICHIGAN. This year will mark the sixth Michigan "GreenUp" Conference, designed to be a valuable experience for sharing information, networking, and learning. Green chemistry and engineering are about designing, innovating, and manufacturing what's next and developing less hazardous, more effective materials, processes, and products. Green chemistry and engineering can help businesses create new markets, reduce costs, increase safety, and gain a competitive edge. For chemists, engineers, industry CEOs, educators, students, entrepreneurs, decision makers, policymakers – anyone interested in Michigan's march toward smart, sustainable growth – this conference is the opportunity to hear from leading experts and share innovative ideas on how we can best "green up" Michigan through green chemistry and engineering. Updated conference information, including the Call for Presentations and sponsor/exhibitor information, will be available on the Web this summer at www.michigan.gov/greenup.
