Written comments on the draft ROP, or a request to hold a public hearing, are to be submitted to Ed Lancaster, Michigan Department of Environmental Quality, Air Quality Division, Upper Peninsula District Office, 1504 West Washington Street, Marquette, Michigan 49855, or via email to lancastere1@michigan.gov by July 29, 2015. The decision-maker for the permit is Chris Hare, Upper Peninsula Acting District Supervisor. If requested in writing by July 29, 2015, a public hearing may be scheduled. Information Contact: **Ed Lancaster**, Air Quality Division, lancastere1@michigan.gov or 906-250-5124.

JULY 29, 2015

PUBLIC HEARING AND DEADLINE FOR PUBLIC COMMENT ON LICENSE RENEWAL, THE DOW CHEMICAL COMPANY, MICHIGAN OPERATIONS, MIDLAND PLANT AND SALZBURG LANDFILL, MIDLAND, MIDLAND COUNTY (MID 000 724 724 AND MID 980 617 435). Written comments are being accepted until August 28, 2015, on a draft hazardous waste management facility operating license (License) for The Dow Chemical Company (Dow), Michigan Operations, Midland Plant, 1790 Building, Washington Street, Midland, Michigan and Salzburg Landfill, 2314

West Salzburg Road, Midland, Michigan. Licenses for these two facilities were previously issued separately. The Office of Waste Management and Radiological Protection (OWMRP) proposes to renew the Salzburg Landfill License four years ahead of schedule and merge Dow's two Licenses into a single License with common conditions and attachments, where possible. The License would allow the continued operation of Dow's container storage, tank storage and treatment, surface impoundment treatment/storage/disposal, incineration, post-closure, landfilling, and on-site and off-site corrective action activities. The term of the License renewal is for ten years. In addition, the OWMRP proposes to incorporate Dow's Site-specific Land Disposal Restrictions Treatability Variance into the License as part of the Waste Analysis Plan and to extend the term of the Variance so that it will run concurrent with the License and be renewed as part of future licensing actions. The Variance currently applies to certain soils generated during corrective action or as a result of upgrade or maintenance of corrective action management systems, including Dow's Revetment Groundwater Interception System. In addition to linking the term of the Variance to the term of the License, non-routinely generated Tertiary Pond Solids would be added as a waste stream subject to the Variance. Due to the proposed extension and revision of the Variance, the merging of Dow's two Licenses, and the overall complexity of this licensing action, a 60-day public comment period is being held instead of a 45-day public comment period. The DEQ has scheduled a public hearing regarding the draft License at the Bullock Creek High School auditorium, 1420 South Badour, Midland, Michigan, at 7:00 p.m. on July 29, 2015. The draft License and Variance documents, including a Fact Sheet that summarizes this relicensing action, are available online at www.michigan.gov/deq (click on Waste, Hazardous and Liquid Industrial Waste, Hazardous and Liquid Industrial Waste Management, and scroll to "Dow Midland Plant and Salzburg Landfill Hazardous Waste Management Facility Operating License Information" under "Information"). Written comments must be submitted by August 28, 2015, to Cheryl Howe, Department of Environmental Quality, Office of Waste Management and Radiological Protection, P.O. Box 30241, Lansing, Michigan 48909 or via email at howec@michigan.gov. Decision-maker: **Bryce Feighner**, OWMRP Chief. Information Contact: **Cheryl Howe**, OWMRP, 517-284-6561.

JULY 31, 2015

DEADLINE FOR PUBLIC COMMENT REGARDING WADE MCCREE ESTATES, ECORSE, WAYNE COUNTY, for the response activity plan for the Wade McCree Estates, a site of environmental contamination located at 266 Hyacinthe Street in Ecorse, Wayne County, Michigan. Contamination at the site was caused by former industrial operations and bulk petroleum above ground storage tanks (ASTs). This notice is to offer an opportunity for public review and comment prior to final action on the proposed plan. Written public comments will be accepted until 5:00 PM on July 31, 2015. The MDEQ will carefully consider and address significant public comments before a final decision is made regarding the proposed plan. The remedial action plan will be available for review beginning June 22, 2015 at the Ecorse Housing Commission at 266 Hyacinthe Street, Ecorse, Michigan 48229. A copy will also be available for review during normal business hours at the Michigan Department of Environmental Quality, Southeast Michigan District Office, 27700 Donald Court, Warren, Michigan. The review period will not be less than 30 calendar days from the date of this publication. Comments should be addressed to: **Patricia Thornton** MDEQ Southeast Michigan District Office 27700 Donald Court, Warren, Michigan 48092, 586-753-3758 or thorntonp@michigan.gov.

MIWATERS 101 WORKSHOPS, LANSING COMMUNITY COLLEGE - WEST CAMPUS, LANSING, MICHIGAN. This summer, the DEQ's Water Resources Division (WRD) will launch a new information system called MiWaters. MiWaters is a state of the art, comprehensive, Web-based, permitting and compliance database that will replace over 25 software applications and databases currently used by the WRD (some of which are over 30 years old). The DEQ is hosting two informational sessions to provide an overview of the system and the changes it will effect. The morning session will be of interest to those users and permittees in the Groundwater, NPDES, Stomwater, and Aquatic Nuisance Control programs. The afternoon session will focus on Wetlands, Inland Lakes and Streams, and Great Lakes and Dunes programs. Who should attend: Permittees and Applicants; also invited are consultants, stakeholders, contractors. **NOTE: Due to the high interest in these workshops, a third session has been scheduled for August 17, 2015 for ALL users and permittees in Water programs.** More information is available at www.michigan.gov/deqworkshops, click on "DEQ Workshops." OCTOBER, 2015

ENVIRONMENTAL REMEDIATION AND RISK MANAGEMENT CONFERENCE, VARIOUS LOCATIONS, MICHIGAN. The DEQ Remediation and Redevelopment Division is pleased to announce the upcoming Environmental Remediation and Risk Management Conference, offered in three convenient locations across the state and focusing on the changes to Michigan's regulatory framework in recent years. Case studies highlighting examples of changes in the regulatory framework will be presented by DEQ staff and consultants and/or owners who have worked in partnership to achieve environmental remediation or risk management objectives at sites. This format not only emphasizes how the regulations are applied under real site conditions, it also features the collaborative efforts between the DEQ and parties seeking to develop strategies for managing risks and addressing releases of hazardous substances. Institutional controls, groundwater/surface water interface, and vapor intrusion are just a few of the topics covered on which case studies will be presented. The conference presentations will be beneficial for state and local government agencies; environmental consultants, attorneys, and practitioners; Federal and Tribal agencies; Owners and operators of contaminated properties; and environmental organizations.
