THE YEAR OF CLEAN AIR – AQD MONTHLY 101 WEBINAR SERIES

SEPTEMBER 2015 –
JULY 2016

MICHIGAN DEQ CELEBRATES YEAR OF CLEAN AIR WITH AIR QUALITY DIVISION'S 101

WEBINAR SERIES. The Year of Clean Air – AQD 101 Webinar Series is a monthly Webinar that will focus on specific topics associated with the Michigan Department of Environmental Quality Air Quality Division (AQD) and its associated programs. AQD staff handles a variety of very specialized parts of keeping Michigan's air clean and safe for our state's residents. Air quality has improved dramatically in the state since we began to manage and regulate what is allowed to enter our air 50 years ago. The Webinars will feature firsthand experience from a variety of AQD staff members from Lansing and the field, representing the multiple facets of AQDs various programs. More information is available at www.michigan.gov/deqworkshops, click on "DEQ Workshops." Information Contact: **Jenifer Dixon**, Office of Environmental Assistance, 517-284-6892, or email at dixonj@michigan.gov.

Potential to Emit: What is it and why are all Air Quality Rules based on it? - September 23, 2015
When someone says, "Look at your Potential to Emit (PTE)" or "Did you calculate your PTE?" does it make you panic a little bit wondering what they are talking about? PTE can be a confusing topic for all sectors of industry. However, PTE is something that most businesses should be assessing on a more regular basis. This Webinar will focus on what PTE is and why it is used to determine applicability for most air regulations. If PTE confounds you, then this Webinar would be a good way to begin your PTE education.

October 2015

Introduction to Air Permit to Install - October 21, 2015

As a preamble to the next *Air Permit to Install (PTI) Application Training* that will take place on November 10, 2015, this Webinar will discuss the AQD's PTI program. This Webinar will appeal to those who are interested in learning more about the PTI application process as well as how Michigan's AQD PTI program works. For instance, did you know that the PTI Program has specific units and staff that handle and specialize in particular processes? If you have ever applied for a permit, or think you may have to, then this Webinar would be of interest.

ENVIRONMENTAL REMEDIATION AND RISK MANAGEMENT CONFERENCE, VARIOUS LOCATIONS, MICHIGAN.

The DEQ Remediation and Redevelopment Division is pleased to announce the upcoming Environmental Remediation and Risk Management Conference, offered in three convenient locations across the state and focusing on the changes to Michigan's regulatory framework in recent years. Case studies highlighting examples of changes in the regulatory framework will be presented by DEQ staff and consultants and/or owners who have worked in partnership to achieve environmental remediation or risk management objectives at sites. This format not only emphasizes how the regulations are applied under real site conditions, it also features the collaborative efforts between the DEQ and parties seeking to develop strategies for managing risks and addressing releases of hazardous substances. Institutional controls, groundwater/surface water interface, and vapor intrusion are just a few of the topics covered on which case studies will be presented. The conference presentations will be beneficial for state and local government agencies; environmental consultants, attorneys, and practitioners; Federal and Tribal agencies; Owners and operators of contaminated properties; and environmental organizations. 9TH BIENNIAL STATE OF LAKE MICHIGAN/15TH ANNUAL GREAT LAKES BEACH ASSOCIATION JOINT CONFERENCE, GRAND TRAVERSE RESORT, ACME, MICHIGAN. *Save the date!* The DEQ invites you to the Grand Traverse Resort and Spa near Traverse City, Michigan, for the 2015 Joint Conference. Attendees will hear from top experts in their fields about the current status and science behind Lake Michigan and beach restoration and management. This joint conference will draw together more than 350 resource managers, scientists, elected officials, planners, students, and interested citizens from around Lake Michigan and the Great Lakes. Sessions from previous conferences have included Contaminants and Emerging Chemicals of Concern; Invasive Species, Food Webs and Lake Michigan Fisheries; Nutrients and Nuisance Algae; Climate Change, Great Lakes Water Levels, and Coastal Hazards; Green Infrastructure and Low Impact Development; Sustainable Harbors, Ports and Marinas; Lake Michigan Species and Habitat Restoration; Physical, Hydrological, and Geological Aspects of Great Lakes Beaches; and, Epidemiological and Pathogen Occurrence Studies. Optional activities will include field trips, training sessions, and an evening reception. This year's conference will also showcase *The Freshwater Summit*, an annual gathering held in Traverse City of environmental professionals, scientists, engaged citizens, and government agencies to explore local and regional water issues from a Great Lakes regional perspective. Please join us to strengthen the network of individuals and organizations working to improve, protect, and celebrate these important resources.
