UNITED STATES STEEL CORPORATION, ECORSE, WAYNE COUNTY (A7809), for the two proposed permit modifications to the existing galvanizing line cleaning section and installation of a new coating line and duct burner within the existing galvanizing operations and includes a proposed consent order. These actions are to resolve the alleged violations of the Clean Air Act. The facility is located at 1 Quality Drive, Ecorse, Michigan. Additionally, the proposed modifications to the galvanized line will require revisions to Renewable Operating Permit No. MI-ROP-196600132d. This public comment period meets the public participation requirements for a future administrative amendment to the ROP. The responsible official for the source is James Gray, 1 Quality Drive, Ecorse, Michigan. The New Source Review and ROP public notice documents can be viewed at www.deq.state.mi.us/aps. If a public hearing is requested in writing by October 21, 2015, an informational session and public hearing will be held October 29, 2015 (see October 29 listing in this calendar). Written comments and/or a request for a hearing on the permits should be sent to Mary Ann Dolehanty, Permit Section Supervisor, Michigan Department of Environmental Quality, Air Quality Division, P.O. Box 30260, Lansing, Michigan 48909. All statements received by October 21, 2015, will be considered by the decision-maker prior to final action. Permit Information Contact: **Ambrosia Brown**, Air Quality Division, browna39@michigan.gov or 517-284-8072. Consent Order Information Contact: **Jason Wolf**, Air Quality Division, wolfj2@michigan.gov or 517-284-6772. Decision-maker: **Lynn Fiedler**, Air Quality Division Chief.

- PUBLIC HEARING ON PERMIT APPLICATION SUBMITTED BY THE REED BEIDLER TRUST, 1235 HARTREY AVENUE, EVANSTON, ILLINOIS 60202, MDEQ FILE NUMBER 15-11-0019-P.** The Water Resources Division will hold a public hearing Thursday, October 29, 2015, at 6:30 p.m., at the Chikaming Township Center, 13535 Red Arrow Highway, Harbert, Michigan 49115. The applicant proposes to construct a new residence, attached garage, pool/hot tub, cabana, coach house, attached garage, fire pit, tennis court, gazebo, driveway, and two pedestrian bridges over a stream, within a critical dune area, in the 18000 block of Cherry Beach Road, Lakeside, Michigan.

The main house, garage, and appurtenant structures and uses would occupy approximately 12,370 square feet. The coach house, detached garage, and appurtenant structures and uses would occupy approximately 4,690 square feet. The driveway, tennis court, bridges, and stairs would occupy approximately 9,250 square feet. The two pedestrian bridges are proposed to be 5 feet wide, approximately 50 to 60 feet long, and 12 to 13 feet above the stream. No fill or placement of structures on the bottomland of the stream is proposed. Approximately 120 linear feet of retaining wall and 350 feet of fence is proposed. The project is located in T07S, R20W, Section 17, Chikaming Township, Berrien County, Michigan, in accordance with plans attached to this notice. Information Contact: **Ben Zimont**, Water Resources Division, 269-567-3561; or zimontb@michigan.gov.

PUBLIC HEARING ON PERMIT APPLICATION SUBMITTED BY PINNACLE HOMES, BRAD BOTHAM, 1668 SOUTH TELEGRAPH ROAD, SUITE 200, BLOOMFIELD, MI 48302, MDEQ FILE NUMBER 63-1250 KENSINGTON ROAD-BLOOMFIELD TOWNSHIP. The Water Resources Division will hold a public hearing Tuesday, November 3, 2015, at 7:00 p.m., at the Bloomfield Township Offices, 4200 Telegraph Road, Bloomfield Township, Michigan, 48303. The applicant's original proposal was to place 2,816 cubic yards of fill within 0.07 acres of wetland for an access drive and roadway improvements; install associated utilities; discharge pretreated storm water runoff into wetlands; detain the 100-year storm event runoff within wetland areas; and install a storm water outlet structure within the wetland to facilitate the detention. Revised plans were received August 26, 2015, which reduced the wetland fill amounts to 225 cubic yards of material within 0.01 acres of wetland for the slopes of the boulevard entrance, and includes installation of the water main within 25 linear feet of wetland within this fill footprint. Storm water runoff is no longer being routed into Wetlands D and E for detention, but will be routed to the south where it will be detained in the existing basin, which is planned to be enlarged. Runoff will then be discharged into the existing ditch along Squirrel Road. The project is located in T02N, R10E, Section 13, Bloomfield Township, Oakland County, Michigan. Information Contact: **Susan Tepatti**, Water Resources Division, 586-256-7272; or tepatiss@michigan.gov.

PUBLIC COMMENT SOUGHT BY NOVEMBER 6, 2015, ON DRAFT DAMAGE ASSESSMENT AND RESTORATION PLAN ARISING FROM THE 2002 ROUGE RIVER MYSTERY OIL SPILL. The natural resource trustees for the 2002 Rouge River Mystery Oil Spill (specifically, the U.S. Fish and Wildlife Service, the Michigan Department of Natural Resources, the Michigan Department of Environmental Quality and the Michigan Department of the Attorney General) have announced the availability of their Draft Damage Assessment and Restoration Plan for public review and comment. The trustees request input from the public regarding their assessment of damages and proposed projects to compensate the public for lost resources and services resulting from the spill. The Draft Damage Assessment and Restoration Plan is available on the U.S. Fish and Wildlife Service's website at www.fws.gov/midwest/es/ec/nrda/RougeRiver. On April 9 and April 12, 2002, a mixture of diesel fuel and used motor oil was discharged from the Baby Creek Outfall into the Rouge River near Dearborn, Michigan. These discharges resulted in the release of an estimated 322,820 gallons of the oil mixture. Oil was observed along three miles of the Rouge River, extending from the Dix Street Bridge to the Detroit River and along 17 miles of the Detroit River from its confluence with the Rouge River to western Lake Erie. The spill caused substantial impacts to wildlife and wildlife habitats. The trustees are acting on behalf of the public to plan and implement actions to restore, rehabilitate, replace, or acquire the equivalent of the affected natural resources injured by the Rouge River Mystery Oil Spill. Comments on the Draft may be submitted in writing or via email

to the U.S. Fish and Wildlife Service during the 30-day public comment period. The trustees will consider public comments in preparing and issuing a final Damage Assessment and Restoration Plan for the 2002 Rouge River Mystery Oil Spill. Paper copies of the Draft Damage Assessment and Restoration Plan are available by request. Comments regarding the Draft Damage Assessment and Restoration Plan may be submitted electronically or by mail directed to the contact noted below. Comments should be submitted no later than November 6, 2015. Information Contact: **Clark D. McCreedy**, U.S. Fish and Wildlife Service, 517-351-8373; clark_mccreedy@fws.gov; East Lansing Field Office, 2651 Coolidge Road, Suite 101, East Lansing, Michigan 48823.

2015 MONTHLY

2015 MONTHLY CONSTRUCTION STORM WATER OPERATOR/SOIL EROSION INSPECTOR TRAINING, VARIOUS LOCATIONS, MICHIGAN. The DEQ Water Resources Division will be hosting training and exams for Certification as a Construction Storm Water Operator. These half-day sessions will include a training video outlining inspector/certified operator requirements, best practices for soil erosion and sedimentation control, and common compliance problems found on construction sites. Not all information on the test is included in the training, so participants are expected to have read and understand the information presented in the [“Certified Storm Water Operator and Soil Erosion and Sedimentation Control Inspector/Comprehensive Manual”](#) chapters 1-5. The training will be followed by a fifty question, multiple choice exam. A score of 70 percent is required to pass and become certified. Complete Training and Exam schedules can be found on the Web at www.michigan.gov/soilerosion and by clicking on the first link under the training header. **Cost: \$95.** Information Contact: **Sarah Ehinger**, WRD, 269-567-3515, or ehingers1@michigan.gov. To register, determine the training date and location you would like to attend and contact the [district staff person](#) for that location.

MICHIGAN DEQ CELEBRATES YEAR OF CLEAN AIR WITH AIR QUALITY DIVISION'S 101

WEBINAR SERIES. The Year of Clean Air – AQD 101 Webinar Series is a monthly Webinar that will focus on specific topics associated with the Michigan Department of Environmental Quality Air Quality Division (AQD) and its associated programs. AQD staff handles a variety of very specialized parts of keeping Michigan's air clean and safe for our state's residents. Air quality has improved dramatically in the state since we began to manage and regulate what is allowed to enter our air 50 years ago. The Webinars will feature firsthand experience from a variety of AQD staff members from Lansing and the field, representing the multiple facets of AQDs various programs. More information is available at www.michigan.gov/degworkshops, click on "DEQ Workshops." Information Contact: **Jenifer Dixon**, Office of Environmental Assistance, 517-284-6892, or email at dixonj@michigan.gov.

Introduction to Air Permit to Install

As a preamble to the next *Air Permit to Install (PTI) Application Training* that will take place on November 10, 2015, this Webinar will discuss the AQD's PTI program. This Webinar will appeal to those who are interested in learning more about the PTI application process as well as how Michigan's AQD PTI program works. For instance, did you know that the PTI Program has specific units and staff that handle and specialize in particular processes? If you have ever applied for a permit, or think you may have to, then this Webinar would be of interest.

November 18, 2015

Air Quality and the Nonmetallic Mineral Crushing Industry

The nonmetallic mineral crushing industry, especially in regard to portable crushing, is one with specific requirements that are sometimes slightly different than that of a typical stationary source. There are notifications that must be submitted for certain activities. This Webinar will focus on the specific rules that apply to this industry and some of the challenges that industry and regulators face. If you are a nonmetallic mineral crusher, portable or stationary, or if you are interested in an AQD inspector's perspective on the challenges, this Webinar will be interesting for you.

What is MAERS and what is the data used for?

Michigan Air Pollution Control Rule R336.202 (Rule 2) requires an annual report from many commercial, industrial, or governmental sources of air contaminants. In Michigan facilities submit their emissions calculations through the Michigan Air Emissions Reporting System (MAERS). Maybe you know about MAERS, but have you ever wondered where that data goes and what it is used for? This webinar will give you a good idea of what happens after you click the submit button.
