DEADLINE FOR PUBLIC COMMENTS REGARDING PART 11, CONTINUOUS EMISSIONS MONITORING. The Air Quality Division will be holding a comment period until December 2, 2013, and also a public hearing on December 2, 2013, at 1:30 p.m. on proposed revisions to administrative rules promulgated pursuant to Part 55, of the Natural Resources and Environmental Protection Act, 1994 PA 451. The comment period and hearing will address requirements

contained in the state administrative rules and revisions to Michigan's State Implementation Plan under the federal Clean Air Act. These rules are identified as R 336.2103a, R 336.2204, R 336.2150, R 336.2151, R 336.2153, R 336.2155, R 336.2157, R 336.2158, R 336.2160, R 336.2161, R 336.2170, R 336.2175, and R 336.2199. The purpose of these rule revisions is to align requirements in the state rules with those in the federal Mercury and Toxics Standards with respect to continuous emissions monitoring. In addition, dates and costs for adoptions by reference will be updated. The amendments to the existing rules will enable the affected sources to follow only one method of compliance rather than complying with two different state and federal methods. The hearing will be held at Constitution Hall, William Ford Conference Room, 2nd Floor, South Tower, 525 Allegan Street, Lansing, Michigan. If there are no participants or if those who are present have had the opportunity to speak, the hearing will close at 2:30 p.m. Copies of the proposed rules (ORR 2013-052 EQ) can be downloaded from the Internet through the Office of Regulatory Reinvention at www.michigan.gov/orr or they may also be obtained by contacting the Michigan Department of Environmental Quality, Air Quality Division, 525 West Allegan Street, Lansing, Michigan 48933. MICHIGAN GREEN INFRASTRUCTURE CONFERENCE: PROTECTING WATER RESOURCES AND PROMOTING ECONOMIC DEVELOPMENT, THE LANSING CENTER, LANSING, MICHIGAN. Save the date - a major Green Infrastructure Conference is coming to Lansing on May 8-9, 2014. This conference is a natural outgrowth of the Governor's 2012 Special Message on Energy and the Environment. The conference expands on this theme to highlight a broad range of benefits and opportunities provided by green infrastructure planning and preservation at local and regional scales. “How-to” presentations and case studies will be highlighted. Many experts will be available at this two-day conference to discuss what's being done to advance GI at the federal and state levels. The regional and local levels will focus on codes and ordinances, funding, cost/benefits, and partnerships. The site-specific level will feature presentations on preparation, design, placement, sizing, and maintenance of structural and vegetative controls. This conference is targeted towards local government decision makers and engineers, planners, consultants and landscape architects, developers and builders, drain commissioners, road agencies, business and industry, conservation organizations, foundations and environmental non-profits groups, and anyone with duties related to land use and stormwater management.
