REMEDIATION DIVISION

FIVE YEAR REVIEW FOR GRATIOT COUNTY LANDFILL. On September 29, 2011 the DEQ and USEPA signed a Five Year Review for the Gratiot County Landfill (GCL).. This is the fifth Five-Year Review for this Superfund site of environmental contamination. These reviews are conducted as a matter of policy to evaluate whether a completed remedial action remains protective of human health and the environment at sites where hazardous waste remains onsite at levels that do not allow for unlimited use and unrestricted exposure. The Five Year Review found that the remedy at GCL is fully constructed and is currently protective of human health and the environment. Continued data collection, including groundwater and methane monitoring and evaluation, are necessary to continue to ensure that the constructed remedy remains protective for the various exposure pathways in the long-term as well as the implementation of effective institutional controls. For more information, or to relay questions, or to request a copy of the Five Year Review for Gratiot County Landfill, please contact the DEQ Remediation Division project manager Matthew Williams at 517-373-4821 or e-mail at WilliamsM13@michigan.gov.
