MARATHON PETROLEUM COMPANY LP, DETROIT, WAYNE COUNTY, for the proposed draft Permit for the proposed installation and operation of a gasoil hydrotreater (GOHT) reactor, a GOHT feed heater, eight liquefied petroleum gas storage tanks, and a liquefied railcar load rack. The GOHT reactor and GOHT heater will allow the facility to produce gasoline that complies with the United States Environmental Protection Agency's Tier 3 Fuel Standards. These standards will lower the amount of sulfur in gasoline, which will lower sulfur dioxide emissions from vehicles. The facility is located at 1300 South Fort Street, Detroit, Michigan. Additionally, installation and operation of a GOHT reactor, a GOHT feed heater, eight liquefied petroleum gas storage tanks, and a liquefied railcar load rack will require revisions to Renewable Operating Permit (ROP) No. MI-ROP-A931-2012b. The responsible official for the source is David Roland, 1330 South Fort Street, Detroit, Michigan. This public comment period meets the public participation requirements for a future administrative amendment to the ROP. The New Source Review and ROP public notice documents can be viewed at www.deq.state.mi.us/aps. The public hearing will be held on January 6, 2016, in the Auditorium at the River Rouge High School, 1460 West Coolidge Highway, River Rouge, Michigan. Prior to the hearing, an informational session will be held from 6:00 p.m. to 7:00 p.m. where the Air Quality Division staff will be available to answer questions; the public hearing will immediately follow. Written comments should be sent to Annette Switzer, Acting Permit Section Supervisor, Michigan Department of Environmental Quality, Air Quality Division, P.O. Box 30260, Lansing, Michigan 48909. All statements received by January 6, 2016, will be considered by the decision-maker prior to final action. Information Contact: **Andrew Drury**, Air Quality Division, drurya@michigan.gov or 517-284-6792. Decision-maker: **Lynn Fiedler**, Air Quality Division Chief.

AIR QUALITY DIVISION

PART 55, AIR POLLUTION CONTROL, NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT, 1994 PA 451, AS AMENDED. The Air Quality Division is holding a public hearing on December 7, 2015, and accepting public comments until December 18, 2015, on proposed revisions to the Air Pollution Control Rules (ORR 2014-153 EQ). The proposed revisions are to Part 1, General Provisions, R 336.1101-1103, R 336.1106-1109, R 336.1112-1116, R 336.1118-1123, and R 336.1127. These revisions are being made to address rule recommendations made by the Office of Regulatory Reinvention’s Environmental Advisory Rules Committee. The revisions also reflect the removal of obsolete dates, corrected citations, updated provisions to be consistent with federal requirements, changes to regulation of toxic air contaminants, clarification of permit exemptions, and moving adoption by reference to another rule section. The public comment period and hearing will address requirements contained in the state administrative rules and revisions to Michigan’s State Implementation Plan under the federal Clean Air Act. The public hearing will be held on December 7, 2015. Frequently asked questions, rule-by-rule summary and proposed revisions to rules can be viewed at

PART II: CONFERENCES, WORKSHOPS AND TRAINING PROGRAMS

Conferences, Workshops, and Training

ANNOUNCEMENT – The DEQ’s Office of Environmental Assistance (OEA) now accepts Visa, MasterCard, and Discover for all DEQ/OEA workshop payments!

2015 MONTHLY

2015 MONTHLY CONSTRUCTION STORM WATER OPERATOR/SOIL EROSION INSPECTOR TRAINING, VARIOUS LOCATIONS, MICHIGAN. The DEQ Water Resources Division will be hosting training and exams for Certification as a Construction Storm Water Operator. These half-day sessions will include a training video outlining inspector/certified operator requirements, best practices for soil erosion and sedimentation control, and common compliance problems found on construction sites. Not all information on the test is included in the training, so participants are expected to have read and understand the information presented in the [“Certified Storm Water Operator and Soil Erosion and Sedimentation Control Inspector/Comprehensive Manual”](#) chapters 1-5. The training will be followed by a fifty question, multiple choice exam. A score of 70 percent is required to pass and become certified. Complete Training and Exam schedules can be found on the Web at www.michigan.gov/soilerosion and by clicking on the first link under the training header. **Cost: \$95.** Information Contact: **Sarah Ehinger**, WRD, 269-567-3515, or ehingers1@michigan.gov. To register, determine the training date and location you would like to attend and contact the [district staff person](#) for that location.

THE YEAR OF CLEAN AIR – AQD MONTHLY 101 WEBINAR SERIES

MICHIGAN DEQ CELEBRATES YEAR OF CLEAN AIR WITH AIR QUALITY DIVISION’S 101 WEBINAR SERIES. The Year of Clean Air – AQD 101 Webinar Series is a monthly Webinar that will focus on specific topics associated with the Michigan Department of Environmental Quality Air Quality Division (AQD) and its associated programs. AQD staff handles a variety of very specialized parts of keeping Michigan’s air clean and safe for our state’s residents. Air quality has improved dramatically in the state since we began to manage and regulate what is allowed to enter our air 50 years ago. The Webinars will feature firsthand experience from a variety of AQD staff members from Lansing and the field, representing the multiple facets of AQDs various programs. More information is available at www.michigan.gov/degworkshops, click on “DEQ Webinars.” Information Contact: **Jenifer Dixon**, Office of Environmental Assistance, 517-284-6892, or email at dixonj@michigan.gov.

What is MAERS and what is the data used for?

Michigan Air Pollution Control Rule R336.202 (Rule 2) requires an annual report from many commercial, industrial, or governmental sources of air contaminants. In Michigan facilities submit their emissions calculations through the Michigan Air Emissions Reporting System (MAERS). Maybe you know about MAERS, but have you ever wondered where that data goes and what it is used for? This webinar will give you a good idea of what happens after you click the submit button.

Air Dispersion Modeling: What the heck is it?

Sometimes a permit contains an emission limit for a specific air toxic, such as formaldehyde. Have you ever wondered why this happens? There are AQD staff members that specialize in air dispersion modeling. Air dispersion modeling is a tool for predicting source impacts through computer simulations. Use of air dispersion modeling is sometimes required to demonstrate compliance with various state and federal ambient air quality standards. If you have ever wondered how this process works or why AQD implements it, then you will be interested in this webinar.

Stack Testing: What is it and why is it necessary?

Sometimes emissions from certain industrial processes and/or the efficiency of process control equipment need to be verified. The way this is completed is through various types of stack testing. AQD has dedicated staff that attends and observes stack tests across the state to ensure the validity of the test being conducted. If you have ever wondered how exactly stack testing is done, or if you are interested in why stack testing may or may not be necessary - then you will definitely enjoy hearing this first hand perspective from one of our resident stack testing staff.

UNDERSTANDING THE NATIONAL FLOOD INSURANCE PROGRAM AND LOCAL FLOODPLAIN BUILDING CODE REQUIREMENTS WEBINAR.

This webinar is intended to highlight the responsibilities of the local community in administering National Flood Insurance Program (NFIP) requirements at the local level. Local officials/building inspectors, planners and consultants who are responsible for carrying out the local floodplain development responsibilities should attend. The purpose of the Webinar is to provide an overview for communities new to the NFIP and a refresher to those communities already in the NFIP. This webinar qualifies for 1 Continuing Education Hour (CEH) for Professional Engineers. More information is available at www.michigan.gov/deqworkshops, click on "DEQ Webinars."

JANUARY 4-6, 2016

26TH ANNUAL NO-SPILLS CONFERENCE: KEEPING THE GREAT LAKES WATER PURE, GRAND TRAVERSE RESORT & SPA, ACME, MICHIGAN.

The focus of this year's Conference will be on water quality and environmental response. Topics include: Non-Point Source Discharges; Toxic Algae Blooms; Micro Plastics in the Great Lakes; Dam Failures & Dam Safety; Michigan's Oil Pipeline Task Force; Response Planning for Crude Oil Rail Shipments; Spill Response Guide/Boom Deployment Calculations; and, What is Your Role Exercise. The DEQ will have speakers at this event. Mark your calendars for this premier environmental and emergency response conference! To register for the conference, visit www.no-spills.org/.

SUBMITTING A STORM WATER POLLUTION PREVENTION PLAN (SWPPP) ANNUAL REPORT IN MIWATERS WEBINAR.

This webinar will show facility personnel how to submit their SWPPP Annual report in the new MiWaters system. In addition, it will provide an overview for facility personnel to setup accounts in MiWaters to establish their authorized users for submitting the SWPPP Annual Report. This webinar will be of interest to all industrial storm water permitted facilities (3000-3500), ISW certified operators, and consultants. More information is available at www.michigan.gov/deqworkshops, click on "DEQ Webinars."

MICHIGAN ONSITE WASTEWATER CONFERENCE AND EXHIBITS, KELLOGG HOTEL AND CONFERENCE CENTER, MICHIGAN STATE UNIVERSITY, EAST LANSING, MICHIGAN.

The DEQ, Michigan Environmental Health Association, Michigan Onsite Wastewater Recycling Association, Michigan Septic Tank Association, Michigan State University, and Michigan Water Environment Association present the 65th annual Michigan Onsite Wastewater Conference and Exhibits. This year's theme is "Onsite Systems, Sustainable Infrastructure". The event is a three-day, educational conference and exhibit hall for the onsite wastewater industry geared toward local public health, engineers, consultants, installation contractors, septic tank pumpers, and others interested in onsite wastewater management. Up to 17.5 Continuing Septage Education hours will be available for DEQ Licensed Septage Businesses. The National Association of Wastewater Technicians will

also be offering the Vacuum Truck Technicians Training Certification Program as part of the conference. Over 30 exhibitors will be participating to exchange ideas and discuss their products and services. Other highlights include a keynote address from Dr. Ted Loudon, a legislative update from State Representative Ken Goike, available one-on-one times for discussions with DEQ Septage Program Staff, presentations from experienced industry professionals, and 14 topics of roundtable discussions. For registration and agenda information, please contact Ms. Chanin Frank at mstasupport@charter.net or 989-808-8648.

10:00 - 11:30 AM

MAERS REVIEW WEBINAR. Are you familiar with the Michigan Air Emissions Reporting System (MAERS) but in need of a little review? The Department of Environmental Quality (DEQ) is pleased to provide this MAERS Review webinar. The webinar is geared for those that are familiar with MAERS but would like a quick review to get them ready for the next submittal. The webinar will provide a very brief review of the registration process, adding users to an account, navigating the forms, and submitting data. More information is available at www.michigan.gov/deqworkshops, click on "DEQ Webinars." If you would like more detailed instruction, it is recommended that you attend one of the half-day [Introduction to MAERS workshops](#) being held throughout the state in January and February.

JANUARY 19, 2016
10:00 - 11:00 AM

E. COLI IN SURFACE WATERS: MICHIGAN'S STATEWIDE BACTERIAL TOTAL MAXIMUM DAILY LOAD (TMDL) WEBINAR. The DEQ estimates that about half of Michigan's river miles are impaired by E. coli, and about 22% of beaches had closures due to E. coli contamination in 2014. E. coli is used as an indicator for fecal contamination and the water quality standard is designed to protect human health during recreation. When the water quality standard is exceeded, the Federal Clean Water Act requires that Michigan develop a Total Maximum Daily Load (TMDL) to provide a framework for restoration of water quality. Given the extent of this problem, and the multitude of potential sources, a statewide approach will be more effective and more efficient at addressing this issue. This webinar will discuss why the DEQ has decided to take a statewide approach, what the statewide TMDL will include, and how it will be updated as well as provide background information on the TMDL process and potential E. coli sources. This webinar will interest general public, watershed groups, municipalities, Tribes, and National Pollutant Discharge Elimination System (NPDES) permittees. More information is available at www.michigan.gov/deqworkshops, click on "DEQ Webinars."
