RE: Midland Resolution Center
Boundary Verification Property Soil Sampling
Request For Access
«F3»
«Property_Info»

Dear «Owner_Info»,

In June 2012, The Dow Chemical Company (Dow) and the Michigan Department of Environmental Quality (MDEQ) entered into an agreement to conduct soil sampling, soil removal and site restoration activities within specified portions of the City of Midland referred to as the Midland Resolution Area.

The soil sampling program within the Midland Resolution Area is nearing completion. Dow and MDEQ recently agreed to sample certain additional residential properties beyond the original Midland Resolution Area boundary to provide verification that the Midland Resolution Area was appropriately determined. Your property, located at «F3», has been identified as one of the residential properties to be included in this sampling program.

Sampling will consist of the collection of soil cores from your property(ies). These cores will be 1-inch wide and approximately 6-inches deep and will be collected using hand held equipment. Sampling activity includes pre-sampling Miss Dig utility marking of the parcel approximately two days before the scheduled sample collection, and then two technicians who will require approximately 30 minutes on-site to collect the soil samples from the parcel. The soil will then be submitted for laboratory analysis of dioxin.

You will receive a letter providing the results of the sampling for your property. In cases where analysis confirms dioxin concentrations exceeding 250 parts per trillion (ppt), the property owner will be contacted to schedule an appointment with a Dow representative to discuss the specific cleanup plan(s) for the property(ies).

Enclosed are a sampling agreement form and a parcel specific sampling plan for your property (ies). In order to have your property(ies) sampled, you will need to sign and return the sampling agreement form to the Midland Resolution Center in the enclosed postage-paid envelope.

Once we have received the signed agreement, Jill Boudreau-Wallaker will be contacting you to schedule the sampling. If you have any questions or concerns regarding the sampling plan for your property, please contact the Midland Resolution Center at 631-2270. We would be glad to discuss it with you by phone, or meet with you in person at the Midland Resolution Center or at your home -- at your convenience -- to further explain the sampling,answer any questions, and address any concerns that you may have regarding the program.

Your participation is completely voluntary. We thank you for your attention to this matter andlook forward to working with you.

Midland Resolution Team
