

# Michigan DEQ Recycling Directory

The directory utilizes the Recycle Search system which is supported by Emerge Knowledge, Inc.

System allows interested parties to list their location(s) in the system.

The system allows consumers and others to search for locations to take your recyclable material. For example if you want to recycle “plastic bags”:

# Michigan DEQ Recycling Directory

Results are based on distance from current location or a searcher can select a specific location.

# Michigan DEQ Recycling Directory

Locations accepting material are encouraged to register with the system.

Building the facility profile is very simple and straightforward.

The screenshot displays the Re-TRAC Connect web application interface. At the top, the user is logged in as Steven Noble. The navigation menu includes Dashboard, Programs, Directories, and Toolkit. The main content area is titled "MEMBER INFO" and shows details for "AMY'S RECYCLING CENTER" under the "MICHIGAN DEQ RECYCLING DIRECTORY" program.

<b>Notes</b>	

## Key Points:

- DEQ verifies the listing information before it goes on the site.
- The system allows DEQ to track listings and we can message the listing party to update their information directly through the system.
- Goal is to provide one stop shopping for residents that are looking for accurate information on recycling opportunities for a wide variety of materials.
