AUGUST 21, 2009

DEADLINE FOR PUBLIC COMMENT REGARDING PROPOSED GENERAL PERMIT CATEGORY FOR BIOENGINEERING PRACTICES FOR STABILIZATION OF INLAND LAKE SHORELINES. Pursuant to Part 301, Inland Lakes and Streams; and Part 303, Wetlands Protection; of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, the Michigan Department of Environmental Quality, Land and Water Management Division is proposing to issue a new General Permit (GP) to encourage the use of bioengineering practices to stabilize the shorelines of inland lakes. These practices -- also known as "soft" or "green" engineering -- are intended to prevent or control soil erosion and to restore native shorelines while protecting and enhancing fish and wildlife habitat and other natural features associated with the lake. Bioengineering uses a combination of native plantings and biodegradable materials to engineer shoreline protection that, to the extent possible, mimics or enhances the natural shoreline. Parts 301 and 303 authorize the issuance of GPs for categories of activities that are similar in nature, will cause only minimal adverse environmental effects when performed separately, and will have only minimal cumulative adverse effect on the environment. If this GP is approved, then the DEQ may review and authorize specific bioengineering projects under this GP in an accelerated manner without issuance of any additional public notice. In order to qualify for authorization under this GP, criteria specified in the proposed GP must be met. The detailed draft GP can be found at www.michigan.gov/deqinlandlakes, or may be requested from the address given below. Written comments should be submitted directly to the Michigan Department of Environmental Quality, Land and Water Management Division, P.O. Box 30458, Lansing, MI 48909-7958 to the attention of Ms. Peg Bostwick. All comments must be received by Friday, August 21, 2009. Information Contact: **Peg Bostwick**, Land and Water Management Division, 517-335-3470.

AIR PERMIT APPLICATION WORKSHOP FOR FIRST-TIME APPLICANTS, CONSTITUTION HALL, LANSING, MICHIGAN. For most first-time applicants, completing the Permit to Install application is a daunting task. However, submitting a complete and timely application can be more manageable if you know what's expected. The Michigan Department of Environmental Quality is offering this workshop designed to give information on how to submit a complete permit application. Since this workshop is geared to first-time applicants, a significant portion of the session is devoted to your specific application. Air Quality Division permit engineers will be available to discuss your permit application with you one-on-one. To take full advantage of this time with the permit engineer, it is recommended you bring detailed information about your project with you to the session. This training is designed for first-time air permit applicants who need help completing their permit application; however, those who have applied before and need a refresher are welcome to attend as well. Online registration is available on the Web at www.michigan.gov/degworkshops, click on "Upcoming DEQ Workshops". Registration Fee: \$25, which includes parking in the Ellis Parking Lot on the east side of Constitution Hall and training manual. Information Contact: **James Ostrowski**, Office of Pollution Prevention and Compliance Assistance, 517-241-8057, or e-mail at ostrowskij2@michigan.gov. Registration Information: **Environmental Assistance Center**, 800-662-9278, or e-mail at deg-ead-env-assist@michigan.gov.
