Subject: Gelman Information Repository Mailing

The most recent documents related to the Gelman site were sent to the information repositories on April 19 by UPS. Attached is the cover letter with the list of documents included. This letter does not have active hyperlinks (as the letter for previous mailing did - this feature will be activated in the version that will be placed on the web site). The documents shown in blue-underline are currently available on the web site (see below for details). The underlined documents in black will be available on-line in the near future.

The DEQ's Gelman web site contains these and many other documents, and can be accessed in two ways:

click on the following link:

http://www.michigan.gov/deq/0,1607,7-135-3311_4109_9846_9847-71595--,00.html

or enter <http://www.michigan.gov/deqrrd> into your web browser's address screen, then scroll to "Contaminated Sites List" and click on "Gelman Sciences, Inc. Site of Contamination".

The attached letter, with active hyperlinks, will soon be posted on the web site under "What's New" - "List of Recent Documents Sent to Information Repositories". Until then, most of these documents can also be accessed by going to the link under "What's New" and clicking on "Selected Documents".
