**Subject:** Gelman - Periodic DNRE Update - Court Hearing Canceled & New Documents Available

The purpose of this note is to inform you that the Department of Natural Resources and Environment (DNRE) and Pall Life Sciences (PLS) have reached agreement in principle on an amendment to the Consent Judgment regarding remediation of the Gelman site. The evidentiary hearing that had been scheduled for February 14, had the parties not reached agreement, has been canceled. Previous updates about the proposed modifications are available at the following link:

We expect that the Third Amendment to Consent Judgment will be submitted to the Court next week. The amendment will be posted on our website after it is entered by the Court and I will provide another update at that time.

The DNRE will schedule a meeting in Ann Arbor to inform the public about the terms of the amendment, probably in March.

New documents have also been posted on our website and can be accessed by clicking on the name of the document, below.
