

RRD Website Announcement intro:

The Michigan Department of Environmental Quality (DEQ) Remediation and Redevelopment Division (RRD) is pleased to announce that registration is now open for the Environmental Remediation and Risk Management Conference.

The conference is being offered in three prime locations across the state and features case studies highlighting areas where significant changes to Michigan's regulatory framework have been made in recent years. Regulatory changes have created opportunities for promoting cost effective remediation solutions and managing risks using sound science and mechanisms to promote the protection of human health.

Please see the attached announcement for more information concerning conference locations, and location specific agendas.

**Registration now open!**

## **Environmental Remediation and Risk Management Conference**

**October 1**

**Suburban Collection Show Place, Novi**

**October 7**

**Park Place Hotel, Traverse City**

**October 14**

**Crowne Plaza, Grand Rapids**

The Michigan Department of Environmental Quality (DEQ) Remediation and Redevelopment Division (RRD) is pleased to announce that registration is now open for the Environmental Remediation and Risk Management Conference.

The conference is being offered in three prime locations across the state and features case studies highlighting areas where significant changes to Michigan's regulatory framework have been made in recent years. Regulatory changes have created opportunities for promoting cost effective remediation solutions and managing risks using sound science and mechanisms to promote the protection of human health.

The areas highlighted in the conference include *Groundwater / Surface Water Interface, Vapor Intrusion, Land and Resource Use Restrictions, and No Further Action/Technical Highlights*. Case studies will be presented in four concurrent tracks on each of the topics offering attendees the opportunity to select sessions based on interest in a specific topic or site. Each conference date will also offer some variation in content featuring sites from the region where the conference is located.

The case studies will feature real sites and real site conditions, highlighting how the DEQ staff and consultants and/or owners have worked in partnership to achieve environmental remediation or risk management objectives at sites.

This conference is not one to be missed! Attendees will receive information and examples of real strategies for solving complicated problems associated with managing risks and addressing releases of hazardous substances.

### **Who should attend?**

The conference presentations will be beneficial for state and local government agencies; environmental consultants, attorneys, and practitioners; federal and tribal agencies; owners and operators of contaminated properties; and environmental organizations.

**COST: \$75** – Includes conference materials, continental breakfast, and lunch.

*This workshop qualifies for 5 Continuing Education Hours (CEHs) and 5 Professional Development Hours (PDHs).*

**Registration and  
Information**
