

K. SUMMARY

The selected remedy will satisfy the statutory requirements established in Section 121 of the CERCLA, as amended by the Superfund Amendments and Reauthorization Act of 1986, to protect human health and the environment. It complies with all ARARs, will provide overall effectiveness appropriate to its costs and will use permanent solutions and alternative treatment technologies to the maximum extent practicable. Treatment is not a component of the selected remedy because an attempt to treat the PCBs in the soils, sediments, and residuals at the 12th St.-OU4 would not provide sufficient additional risk reduction in relation to increased cost.
