INSTRUCTIONS
INTENT OF REMOVAL, CLOSURE OR CHANGE-IN-SERVICE OF UNDERGROUND STORAGE TANKS
Form EQP3824

REPORTING REQUIREMENTS

This form must be received by the Remediation Division (RD) 30 days prior to the commencement of work indicated.

An underground storage tank (UST) subject to Part 211, Underground Storage Tank Regulations, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, (Act 451) must be registered by the current owner and have all fees paid to be considered registered with the RD. The UST owner/operator or agent must complete this form as instructed. The copies returned by the RD will indicate the earliest closure date along with the last date this form is valid.

A site assessment shall be conducted during the closure/change-in-service, with results sent to the RD along with the form provided. The owner/operator must also submit an amended registration form notifying the RD of completion of closure/change-in-service within 30 days after the date of the closure/change-in-service.

INSURANCE REQUIREMENTS

Pursuant to Section 21107 of Part 211, a person who removes USTs shall maintain pollution liability insurance of not less than \$1,000,000 per occurrence.

CONFIRMED RELEASE

A confirmed release must be reported to the RD within 24 hours. A confirmed release waives the requirements of submitting this form, waiting 30 days, and conducting a site assessment. Once reported, the owner/operator will be informed regarding rules for further testing and cleanup activities. Releases may be reported by fax to 517-335-2245 or called in to 1-800-MICHUST.

CLOSURE OF TANKS

Tanks shall be emptied of all liquid and accumulated sludge and purged of all vapors. Piping shall be emptied of all liquid and sludge, purged and capped, or removed from the ground. *Permanent closure* requires **removal** of the UST from the ground, unless it can be documented that removal of the UST would cause damage to a permanent structure. The tank can be closed-in-place after the 30 day waiting period provided that the required documentation is placed in the owner's file. If closure in place is necessary, the tank must be emptied of liquid, sludge and vapors and filled 100% with inert solid material (sand, fly-ash concrete or pea gravel). Piping shall be closed as indicated above. A site assessment is still required if tanks are closed-in-place.

CHANGE-IN-SERVICE

A change-in-service is defined as going from the storage of a regulated substance to an unregulated substance. The tank must be cleaned and purged as stated above, and a site assessment must be performed prior to the introduction of the unregulated substance.

NOTIFICATION

Per R29.2153(d) of the Administrative Rules promulgated under Part 211 of Act 451, the owner/operator shall notify the Hazardous Materials Storage Inspector at the RD district office not less than two working days prior to the work being performed.

If you have questions regarding the above instructions, please contact the RD at 517-355-7279 or the RD District Office.
