

Large Quantity Water Well Construction Records

The attached listing contains water well construction data for wells with pump capacities of 70 gallons per minute (GPM) or greater. These wells were constructed on or after March 1st, 2006. Water withdrawals with capacities of 70 GPM or greater are defined as Large Quantity Withdrawals in Part 327, Great Lakes Preservation, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended.

Please keep in mind that this data is subject to errors and omissions and should be independently verified. This water well construction data was entered into the Wellogic Statewide Groundwater Database by water well contractors, local health department staff, and state of Michigan staff.

This listing will be updated on a monthly basis.

You can also search for water well construction records at <http://wellviewer.rsgis.msu.edu/>.

If you have any questions regarding this data, please contact any of the Water Withdrawal Program staff listed below.

Water Well Classifications

Classification	Description	Code	Examples
Heat Exchange Well	A well for the purpose of utilizing the geothermal properties of earth formations for heating or air conditioning.	HEATP	N/A
Irrigation Well	A well that is used to provide water for plants, livestock, or other agricultural processes	IRRI	Golf Course Irrigation, Agricultural Irrigation, Livestock Watering, etc.
Industrial Well	A well that is used to supply water for industrial processes, fire protection, or similar nonpotable uses	INDUS	N/A
Other	Any type of well that does not fall into the other categories	*OTH	N/A
Test Well	A well that is used to obtain information on groundwater quantity, quality, or aquifer characteristics for the purpose of designing or operating a water supply well	TESTW	N/A
Type I Community Public Water Supply	Provides year-round service to not less than 25 residents OR not less than 15 living units	TY1PU	Municipalities, Apartments, Nursing Homes, Mobile Home Parks
Type II Nontransient Noncommunity Public Water Supply	Serves not less than 25 of the SAME people for at least six months per year	TY2PU	Schools, Industries, Places of Employment
Type II Transient Noncommunity Public Water Supply	Serves not less than 25 people OR not less than 15 connections for at least 60 DAYS per year	TY2PU	Hotels and Restaurants (with less than 25 employees), Campgrounds
Type III Public Water Supply	Anything not considered a Type I or Type II water supply; serves less than 25 people AND 15 connections, or operates for less than 60 days per year	TY3PU	Small Apartment Complexes and Condominiums, Duplexes, all Others
