

To: Public Water and Wastewater Officials (TANS list)

Title: Threat Advisory Notification System [TANS] Notice # 31

Purpose: To Forward Water ISAC Chlorine/VBIED IIR Update

Distribution: FOUO [for official use only]

On 28 February 2007, the WaterISAC Team hosted a Quarterly Analytic Working Group meeting at the ISAC. Because of the increase in attacks in Iraq involving chlorine, key Industry Intelligence Requirements (IIRs) shared by WaterISAC Analysts, ST-/PT-ISAC Analysts and the Association of American Railroads were presented to representatives of the U.S. Intelligence Community and law enforcement partners.

The attached document reflects the answers to the Industry Intelligence requirements that were gathered during discussions in the unclassified briefing, in follow-on conversations and in open source reporting.

If you have any questions regarding this advisory or would like to report a suspicious incident please contact the WaterISAC at WaterISAC-analyst@waterisac.org or call 1-866-H2o-ISAC.
