

Medical Waste Producers Registration and Fee Payment Portal

Agency: Environmental Quality

Contact: medicalwaste@michigan.gov

Description:

Two sites have been developed to allow users to apply for either an Initial Registration as a Medical Waste Producing Facility or to renew an existing registration, in accordance with the Medical Waste Regulatory Act, Part 138 of the Michigan Public Health Code, 1978 PA 368, as amended. Each physical location and facility in Michigan generating, storing, or treating medical waste prior to disposal is required to register initially upon open of operation and every 3 years thereafter.

Instructions:

The Medical Waste Regulatory Program's registration system now allows both **initial registrants** and **returning users** with existing registrations to complete their application and fee payment for registration as a medical waste producing facility online.

If you are a new applicant, following completion of the registration process, you will receive a confirmation e-mail verifying your payment, facility registration number, etc. as proof that you have registered sent to the e-mail you provided as required. You should receive the confirmation e-mail within 24 hours following successful completion of your registration.

Official registration certificate(s) will arrive at your facility automatically via postal mail generally one to two weeks following the completion of your online renewal or initial registration and fee payment. It is recommended that you wait at least two weeks to contact us at medicalwaste@michigan.gov if you still don't have your certificate.

You may also check on the status of your facility's registration or find out if you are already registered by visiting the Licensing and Regulatory Affairs "[Verify a License](#)" site.
