Permittee  
Address  
City

Subject: National Pollutant Discharge Elimination System (NPDES)  
Application for Reissuance of NPDES Permits for  
Concentrated Animal Feeding Operations (CAFOs)

Dear Permittee:

You currently have NPDES permit authorization under the General Permit for CAFOs (Permit No. MIG019000). This general permit expires on April 1, 2010, and applications for reissuance are due October 1, 2009.

We are working to reissue this permit, but do not anticipate completing the reissuance process by October 1, 2009. This is due to a variety of issues, which we are working through.

In accordance with the applicable laws and rules, in order to extend your permit beyond April 1, 2010, you must submit the enclosed abbreviated application by October 1, 2009, along with the application fee of \$75, made payable to the "State of Michigan." This will extend permit coverage under the existing general permit beyond April 1, 2010, and also preserve your right to apply for the new general permit when issued or an individual permit should the general permit not be appropriate. When the CAFO General Permit is reissued, we will notify you. At that time, you will need to complete and submit the appropriate general permit application (no additional fee required) or an application requesting coverage under an individual permit (with an additional application fee of \$325).

If you have any questions, please contact Mike Bitondo at 517-335-3303, or you may contact me.

Sincerely,

Daniel Dell, Chief  
Permits Section
