

Michigan Harvest Gathering Food Pick-up Guidelines & Contacts

Following the guidelines outlined below will make it as easy as possible for our food banks to receive thousands of pounds of food from locations throughout many counties. **Please contact your food bank to determine specific delivery or pickup details at least two weeks in advance of your estimated pickup date.**

- To have food picked up from your building or department, please call the person listed under the food bank which serves the county where your department or hospital is located.
- It may take up to two weeks to coordinate the pickup so plan ahead for that.
- Provide your food bank contact with your name, phone number and detailed directions (including the specific location) on where to pick up the food.
- To save time, and for accuracy, please move all food to one central location.
- If your building has security, please let the food bank contact know the proper procedures.

Our goal is to have all food picked up by Thursday, November 1. We would like to recognize all who participate in this year's Michigan Harvest Gathering. It's important that food is picked up by this date so it can be weighed and reported to the Food Bank Council of Michigan in time for inclusion in campaign reports and recognition opportunities.
