Michigan Agri-Energy Conference

March 30-31, 2009

Kalamazoo Radisson, Kalamazoo, MI

Join other farmers, service providers, rural and agricultural leaders, researchers, and state policy makers to learn more about the latest trends in renewable energy solutions. National and local experts will reveal ways you can improve your bottom line by capitalizing on the potential of renewable sources like wind and solar, biomass, biofuels and bioproducts.

A conference brochure and online registration will be available by early January on the Web at www.michfb.com/agenergy. For more information, contact Megghan Honke at honkemeg@msu.edu or (517) 353-3175 ext. 229.
