The September 27, 2010 CS Part 6 Personal Protect Equipment advisory committee meeting was called to order by Standards Program Manager Dan Dykstra. He welcomed everyone to the meeting and everyone introduced themselves. A roll call was taken and a quorum of advisory committee members was present.

Agenda Item #2. Commissions Instructions for Advisory Committees

Douglas Kalinowski, MIOSHA Director

Mr. Kalinowski stated that MIOSHA recommended to the Construction Safety Standards Commission and the other 2 Commissions to amend the 3 Personal Protective Equipment standards to be consistent, improve clarity, update to most current ANSI standards and look at a couple of specific rules for improvement. It is possible for all 3 rules to apply to 1 person in 1 day. All three Commissions directed MIOSHA to set up advisory committees to review the rules with this intention.

Agenda Item #3 Advisory Committee Standards Promulgation Pilot Project

Dan Dykstra, Standards Program Manager

Mr. Dykstra explained that MIOSHA is initiating a new Standards Promulgation Pilot Project and the 3 PPE committees will be the project advisory committees. With the intention of assisting the advisory committees, MIOSHA staff have already done a comparison of the 3 PPE standards and have suggested language prepared for review. MIOSHA wants to make it very clear that the advisory committees are not to just approve this language but it is a starting point for discussion.
