

Presenting a Half-day Workshop:

Asbestos and Lead Awareness

1 Who Should Attend . . .

This workshop is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MIOSHA Training Institute introduced a certification program, effective October 1, 2007. This course is a MTI Level One course. The certification program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certification program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

Construction trades routinely renovate and demolish buildings that were built prior to 1981. These construction activities often result in contact with asbestos-containing materials. General Industry employers are also subject to asbestos rules and regulations. Asbestos Awareness Training is required annually for employees whose work activities may contact asbestos-containing materials (ACM) or presumed asbestos-containing materials (PACM), but do not disturb ACM or PACM during their work activities. Lead is found both in industry and in construction, and poses a threat to all who come into contact with it. This combined training consists of information regarding asbestos and lead and their various forms and uses. Training also includes information on the health effects associated with asbestos and/or lead exposure. Attendees will receive their two-hour, Class IV Asbestos Awareness certification card.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

- ▶ Asbestos: Its Various Forms and Uses
- ▶ Health Effects Associated with Asbestos Exposure
- ▶ Recognition and Locations of Asbestos Containing Building Materials
- ▶ Recognition of Damaged, Deteriorated, or Delaminated Asbestos Containing Building Materials
- ▶ Identify Pertinent Asbestos Regulations
- ▶ Lead Awareness

All meetings are accessible and barrier free. Please contact the cosponsor or CET Division, at least two weeks in advance, to request necessary accommodations.

This course has been approved for residential builders pre-licensure safety training requirements.

Facilitator

Fred Kirkland joined the MIOSHA program in 1987 as an Industrial Hygiene Compliance Officer working out of the Grand Rapids district office. Fred transferred to the Lansing office in 1988 and continued to work as a compliance officer in both the Lansing district office, and the Asbestos Program until joining the MIOSHA consultation program as an Industrial Hygienist in 2005. Fred conducts consultations in the mid and eastern portions of Michigan.

Fred earned his B.S. in Occupational Safety and Health from Ferris State University. Fred enjoys coaching youth football, track, and basketball. Fred also enjoys physical fitness and fishing.

Fred Kirkland, Jr.
*Industrial Hygienist,
MIOSHA, CET Division*
