

## Presenting Two Half-day Workshops:

# *Asbestos and Lead Awareness*

# *Health Hazards In Construction*

## **1** *Who Should Attend . . .*

This workshop is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

## **2** *MIOSHA Training Institute*

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MIOSHA Training Institute introduced a certification program, effective October 1, 2007. This course is an MTI Level One course. The certification program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TEC<sup>SM</sup> facilities, community colleges, and safety and health organizations. To learn more about the certification program, log-on to the CET Division website at [www.michigan.gov/mti](http://www.michigan.gov/mti).

## **3** *What You'll Learn . . .*

### **Asbestos and Lead Awareness Workshop 9:00 a.m. - 12:00 p.m. \$60.00**

Construction trades routinely renovate and demolish buildings that were built prior to 1981. These construction activities often result in contact with asbestos-containing materials. General industry employers are also subject to asbestos rules and regulations. Asbestos Awareness Training is required annually for employees whose work activities may contact asbestos-containing materials (ACM) or presumed asbestos-containing materials (PACM), but do not disturb ACM or PACM during their work activities. Lead is found both in industry and in construction, and poses a threat to all who come into contact with it. This combined training consists of information regarding asbestos and lead and their various forms and uses. Training also includes information on the health effects associated with asbestos and/or lead exposure. Attendees will receive their two-hour, Class IV Asbestos Awareness certification card.

- ▶ Asbestos: Its Various Forms and Uses
- ▶ Health Effects Associated with Asbestos Exposure
- ▶ Recognition and Locations of Asbestos Containing Building Materials
- ▶ Recognition of Damaged, Deteriorated, or Delaminated Asbestos Containing Building Materials
- ▶ Identify Pertinent Asbestos Regulations
- ▶ Lead Awareness

### **Health Hazards in Construction Workshop 1:00 p.m. - 4:00 p.m. \$60.00**

This course will help educate and make the construction manager/worker aware of some typical occupational health hazards and potential health effects that are associated with the construction trade industry. This workshop is designed to give the student an overview of the basics of industrial hygiene, as well as health issues that may be encountered in the construction industry. Topics covered include lead, silica, cadmium, isocyanates, hexavalent chromium, and asbestos. Students will be able to recognize potential problems with exposures and how to protect themselves with the use of engineering controls and personal protective equipment. (Note: This course does not meet the requirements of the Class IV Asbestos Awareness Certification; that is provided in the MTI course: Asbestos and Lead Awareness.

All meetings are accessible and barrier free. Please contact the cosponsor or CET Division, at least two weeks in advance, to request necessary accommodations.

# Facilitator

Gregg Grubb was appointed to MIOSHA's Consultation Education and Training Division in September 2006 as a Senior Industrial Hygiene Consultant servicing southwest Michigan. Gregg has worked for the State of Michigan as an Industrial Hygienist since 1987. During this time, he has spent 16 years working with MIOSHA in various education and training, consultative, and enforcement capacities. He also spent six and a half years running comprehensive environmental and occupational health and safety programs for a state-wide crime laboratory system. In this position, Gregg provided technical industrial hygiene, safety, and environmental assistance, developed training programs, conducted audits, and developed written programs.

Senior Industrial Hygienist,  
MIOSHA, CET Division

## Program Details

**DATE:** December 8, 2009  
**LOCATION:** AGC of Michigan  
2323 N. Larch Street  
Lansing, Michigan 48906  
**COST:** Each ½-day Session \$60 Per Person  
Includes course materials  
**DEADLINE:** Register by November 30, 2009  
Please register early!

Session 1	Check-in - 8:30 a.m.
Asbestos and Lead Awareness	Program - 9:00 a.m. - 12:00 p.m.
Session 2	Check-in - 12:30 p.m.
Health Hazards in Construction	Program - 1:00 p.m. - 4:00 p.m.
Sign-up for both workshops, lunch provided.	

**COSPONSOR: Associated General Contractors (AGC) of Michigan**

If this valuable seminar doesn't fit with your schedule or position, please pass this flyer on to a colleague.

## How to Register

### Asbestos and Lead Awareness Health Hazards in Construction

#### Four Easy Ways to Register . . .

- ▶ **Phone:** 517.371.1550
- ▶ **Fax:** 517.371.1131
- ▶ **Email:** atruss@agcmichigan.org
- ▶ **Mail:** AGC of Michigan  
PO Box 27005  
Lansing, MI 48909  
Attn: Adriane Truss

Please Make Check or Money Order  
Payable to: **AGC of Michigan**
