## **EXECUTIVE SUMMARY**

For nearly thirty years, the State Building Authority (SBA) has financed over 280 projects for state government and higher education institutions. SBA is a major source for higher education funding, having provided approximately \$2.5 billion to finance construction projects at state universities and over \$336.1 million for projects at community colleges. Over \$226.25 million in SBA financing has also been used to build the Michigan Public Safety Communications System (MPSCS), a state of the art communications system for law enforcement and emergency personnel.

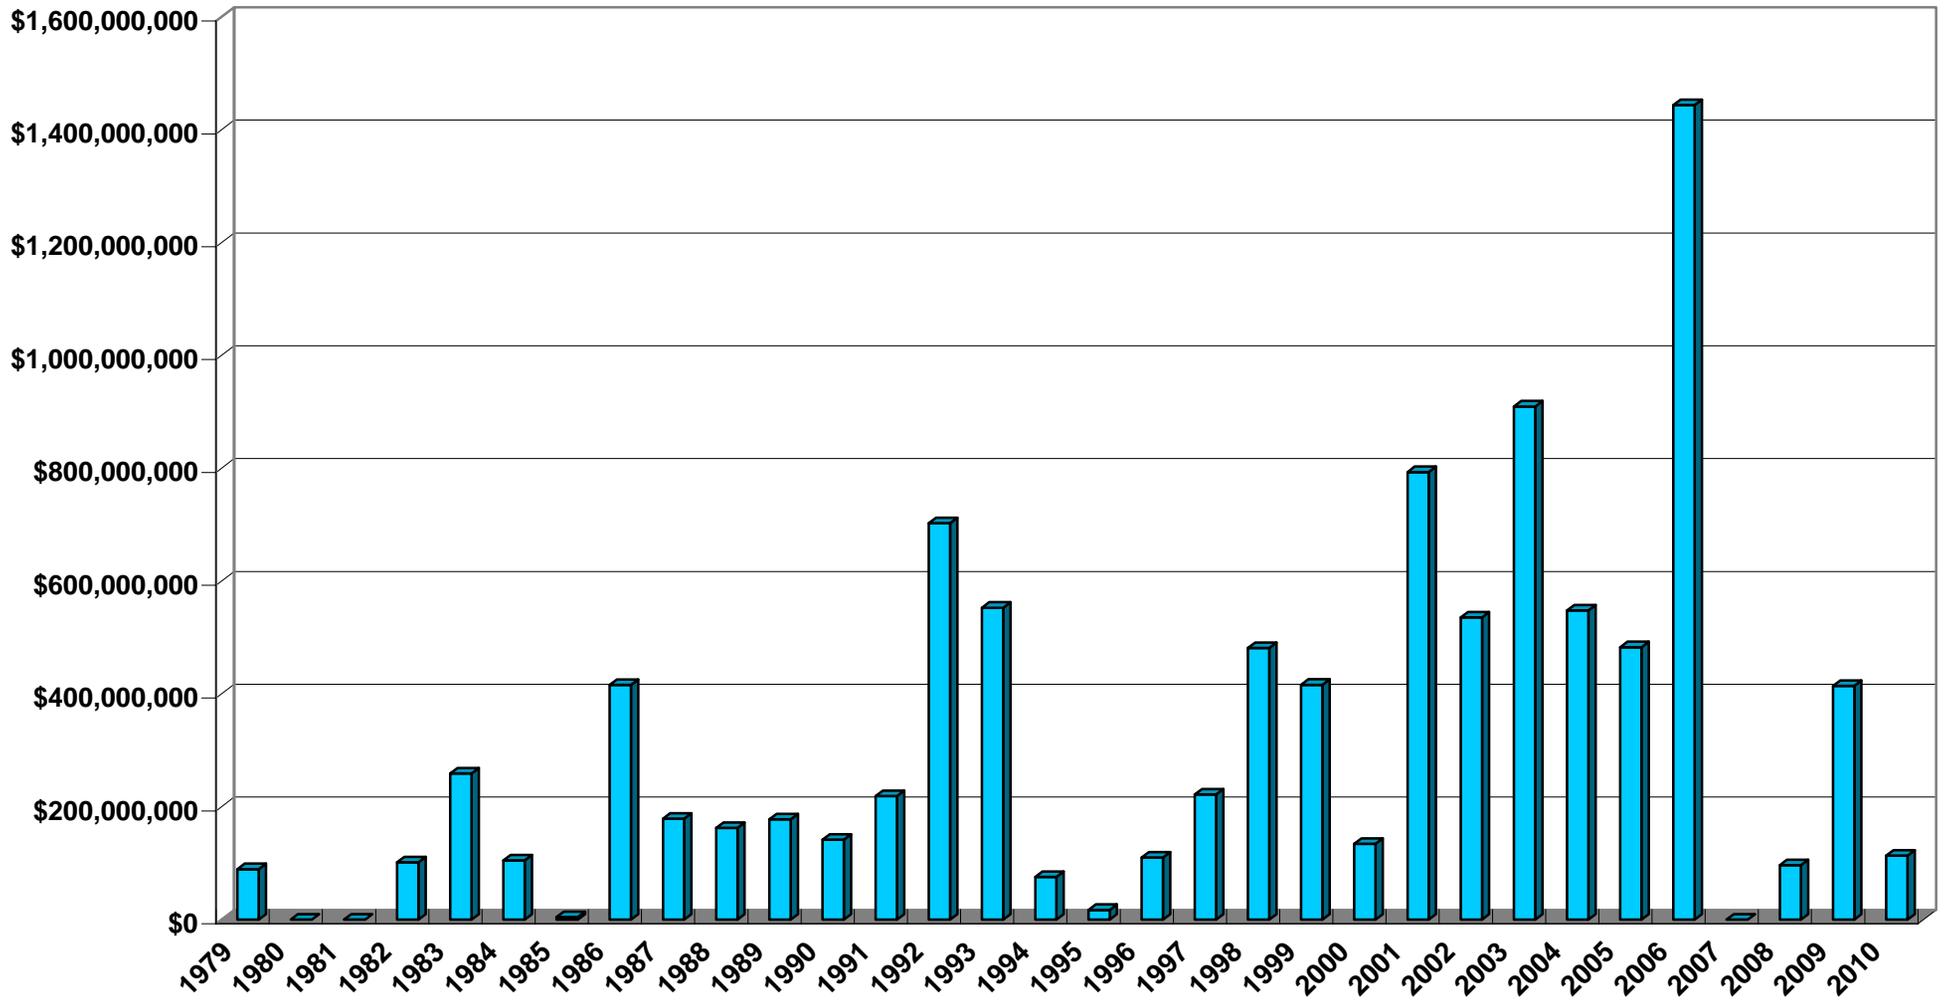

This report summarizes SBA activities from FY 1979 through FY 2010. It contains information on every SBA bond issue and project, as well as information on savings generated through SBA efforts.

Any questions or comments about this report or SBA related issues may be directed to SBA staff:
