MEMO:

TO: All Respondents to the State of Michigan's RFI on Future Provision of ATM Services in State Office Buildings (Project #2012-0266)

FROM: H. David Arking, Project Manager *H.D.A.*
Real Estate Division

DATE: May 10, 2013

Thank you very much for responding to our Request For Information (RFI) concerning the future provision of Automatic Teller Machine (ATM) services in selected Lansing-area State Office Buildings. We really appreciate the time and effort that went into crafting each of the responses. You have given us much to consider!

We are in the midst of analyzing your RFI responses with an eye towards using what you taught us there in developing a formal Request for Proposals (RFP) to provide those ATM services. As promised in the RFI, all RFI respondents will be specifically invited to submit an ATM services proposal when the time comes. At this writing, it is anticipated that our RFP could be issued in June 2013 and that it will come equipped with tools like current building occupancy data and ATM site floor plans to make it easier for you to develop and submit a competitive ATM services proposal.

In closing for now, thanks again for your great assistance/participation in the RFI portion of this project. We look forward to being able to request, receive and study your subsequent proposals as well!
