

MICHIGAN BUILDING PRODUCTS LIST December 8, 2011

The State of Michigan would like to assist our architects and engineers in specifying, and our construction contractors in purchasing, building products manufactured in the State of Michigan. Accordingly we are collecting contact information on such products as we learn of them and we present this information here.

This listing DOES NOT CONSTITUTE an endorsement or guarantee of the satisfactory performance of any of these products by the State of Michigan.

Inclusion of Michigan products in a bid DOES NOT CONFER A BIDDING PREFERENCE; the State of Michigan's preference for Michigan products is given if all other things (such as cost and schedule) are equal and not inconsistent with federal statute.

If you are a Michigan manufacturer of a product used in building or facilities construction and would like your product listed in these pages, please submit your materials to:

Irene Jackson Henry, RA, NCARB
Henryi1@michigan.gov
517/241-3133
