DEPARTMENT OF NATURAL RESOURCES  
LANSING

RICK SNYDER  
GOVERNOR

DR. WILLIAM E. MORITZ  
DIRECTOR

SUBMITTED: March 14, 2016

MEMORANDUM TO THE DIRECTOR

Information: Natural Resources Commission

Subject: Order to Open Riding Opportunities for Equestrians within the Pigeon River Country State Forest (PRCSF), Cheboygan and Otsego Counties  
Land Use Order of the Director Amendment No. 03 of 2016

Authority:

The Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, authorizes the Director to issue orders to implement land use rules.

Discussion and Background:

The purpose of this order is to open and reroute equine trails within the PRCSF, which will be designated and posted as open as provided for in the existing Land Use Order of the Director 4.34. As shown on the attached map, this order will allow about 5.6 miles of additional riding on 16 segments of closed service roads and single track trails within the forest and reroute 2 short segments of existing trail totaling about 0.25 miles.

The PRCSF is the largest contiguous block of State-owned land in the Lower Peninsula and home to Michigan's elk herd. A large part of this forest area was purchased with Fish and Game fund monies, and wildlife management is a key consideration. It has long been managed to protect the unique resource values while offering a variety of resource management opportunities and quiet recreational pursuits. Many recreational activities including equestrian riding, mountain biking, and snowmobiles are managed for a high degree of resource protection and to minimize conflicts among users. These equine trail proposals are part of a final equestrian work plan formulated by the Pigeon River Country Equestrian Committee (PRCEC) and adopted by the Department. The goal of the work plan was to provide additional recreation opportunities while still protecting the unique values of the PRCSF. These proposed trails, along with 7.5 miles approved in 2013, will provide an extensive system of equine routes for looped riding opportunities.

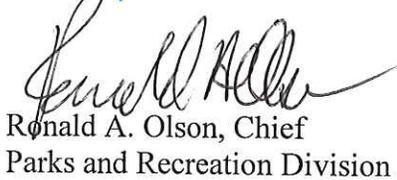

The trails that are proposed to be designated and posted open are a combination of fire lanes that were cleared by the Civilian Conservation Corps for fire protection, service roads closed to vehicles, and single track trails that developed before restrictions were placed on equine use in

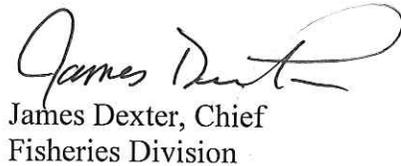

2008. The proposed trails are located on lands not acquired with game and fish funds and will be monitored for resource damage, illegal spur trails, spread of invasive plants and conflicts with other users. A suite of trails were reviewed and the majority was endorsed by the Pigeon River Country Advisory Council (PRCAC) at its July 16, 2015 meeting, and was also endorsed by the PRCEC. In a few instances when the PRCAC and PRCEC could not reach a consensus on a trail proposal, members from each group met in a facilitated session in an effort to resolve differences. After taking input from both groups into account, Department staff is making these final recommendations to the Director on each trail segment. The PRCEC also requested that 2 short segments of existing trail totaling about 0.25 miles be rerouted in favor of the preferred alternatives included in this proposal.

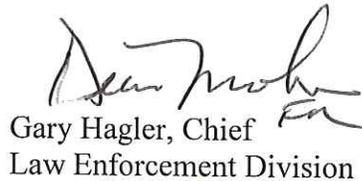

Recommendation:

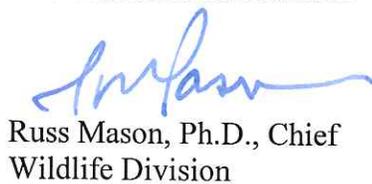

This order was submitted for information and consideration at the March 10, 2016, meeting of the Natural Resources Commission. This item appeared on the Department's February 2016 calendar and may be eligible for approval on April 14, 2016.
