

Table.—Targeted harvest & catch rates per hour, per excursion, and number of fish harvested or released by species for charter boats departing from Saginaw Bay, ports of Tawas City to Port Austin, Lake Huron, 2013. Targeted harvest & catch of any salmon or trout is based on total salmonine effort; other species are trip target specific. Catch Rates = harvested (kept) fish + released fish. Bottom lines show total fishing effort (angler hours, anglers, and charter excursions).
