Refuse To Be A Victim.®

Safety experts agree the single most important step toward ensuring your personal safety is making the conscious decision to Refuse To Be a Victim®. You stand a much better chance of preventing criminal attack if you develop a safety plan before you need it. That is why the National Rifle Association is offering the Refuse To Be A Victim® crime prevention seminar.

The seminar teaches easy-to-understand methods you can use to increase awareness and prevent criminal confrontation. In just three to four hours, you will get the tools you need to develop your own personal safety strategy, including information about:

- The psychology of the criminal mind
- Home and phone security
- Automobile and travel security
- Personal and technological security
- Self-defense devices and training options
