

Dear Task Force Volunteer,

Thank you for volunteering for the Task Force Workgroup for Silver Lake Off-Road Vehicle Area (SLORVA) working towards enhancing customer access to the SLORVA, improving efficiencies and sustaining a quality, safe recreational experience for users of the SLORVA. The names have been randomly drawn according to four tasks identified through the January 12, 2015 SLORVA Enhancement Workshop. At the end of the meeting the concluding task was to identify strategies that could potentially be implemented for the 2015 season. In order to expedite this specific method by which these four tasks could be accomplished efficiently, participants were randomly drawn per task. Below is a list of the task force participants by identified tasks:

A-Permit sales alternatives and pre-check of vehicles process

B-Customer communication and signage

C-Reliable process for traveling visitors

D-Effective parking and additional parking options

Each task group will consist of roughly 15 participants with a total task force of 59 participants. If you are still willing to serve on the task force, your volunteer efforts could be used to ensure SLORVA will achieve success. As you are well aware, SLORVA is a prominent feature in the Oceana County Area so we are pleased you would like to contribute to its development.

| | 2015 Task Force A | 2015 Task Force B | 2015 Task Force C | 2015 Task Force D |
|---------------------|---------------------------|----------------------------|---------------------|----------------------|

| Over 100 mi | Alexander Hunnicutt | Robert Hatfield | Jim Martino | Roger Curtis |
| Over 100 mi | Bill Chapin | Wes Exelby | Jeff Bunge | Chris Chrusciel |

To ensure success, it is crucial to have the local officials directly involved in this process to ensure the outcome is achievable. Officials including the Oceana County Sheriff Department, Michigan State Police, Oceana County Road Commission, Golden Township Board, Hart Area Fire Department, Oceana County EMS, Silver Lake Sand Dunes Area Chamber of Commerce, Department of Natural Resources Law Enforcement Staff, Parks & Recreation Staff and Marketing & Outreach Staff will work side by side with each task force group to provide critical guidance every step of the way.

Thank you for being a goal-directed visitor and/or stakeholder with passion to share. We look forward to your input through this task force which will continue to evolve Silver Lake State Park into a premier

destination. **Task force meeting dates, places, times and a framework with critical guidelines to ensure we achieve the desired outcomes will be forth coming.** We look forward to your cooperative efforts in order to make SLORVA a place where all are included and welcomed. At the end of the meeting we had indicated we would have 15-20 people on the task force. After reviewing the list of enthusiastic volunteers we increased the number of participants to 59 volunteers to ensure a robust process and maximize inclusion to develop the best outcomes possible.

The Department of Natural Resources would like to thank everyone who offered to work on this important task and to ensure transparency we commit to communicating through the SLORVA website in an effort to keep everyone apprised of the process and outcomes.

Ron Olson, PRD Chief

Charlotte Kiefer, Silver Lake State Park Unit Manager

Department of Natural Resources – Parks and Recreation, Law and Marketing & Outreach Team
