## **EXECUTIVE SUMMARY**

Section 813(4) of Public Act 191 of 2010 requires the Department of Technology, Management and Budget (DTMB) to submit a fleet plan to the legislature within 60 days of the end of the fiscal year.

This report summarizes information at the statewide level, including a fleet inventory as of September 30, 2011 and actions taken to reduce fleet expenditures as well as measures to green the fleet. The Department of Technology, Management & Budget will continue to work with the legislature to meet the mutual goal of reducing statewide fleet expenditures.

Additional information regarding fleet operations is available from the Department. Please contact Joyce Van Coevering, Director, Fleet Operations with specific information requests.

## OVERVIEW

Section 813(4) of Public Act 191 of 2010 requires the Department of Technology, Management and Budget (DTMB):

(4) Pursuant to the department of technology, management, and budget's authority under sections 213 and 215 of the management and budget act, 1984 PA 431, MCL 18.1213 and 18.1215, the department shall maintain a plan regarding the operation of the motor vehicle fleet. The plan shall include the number of vehicles assigned to, or authorized for use by, state departments and agencies, efforts to reduce vehicle expenditures, the number of cars in the motor vehicle fleet, the number of miles driven by fleet vehicles, and the number of gallons of fuel consumed by fleet vehicles. The plan shall include a calculation of the amount of state motor vehicle fuel taxes that would have been incurred by fleet vehicles if fleet vehicles were required by law to pay motor fuel taxes. The plan shall include a description of fleet garage operations, the goods sold and services provided by the fleet garage, the cost to operate the fleet garage, the number of fleet garage locations, and the number of employees assigned to each fleet garage. The plan may be adjusted during the fiscal year based on needs and cost savings to achieve the maximum value and efficiency from the state motor fleet. Within 60 days after the close of the fiscal year, the department shall provide a report to the senate and house of representatives standing committees on appropriations and the senate and house fiscal agencies detailing the current plan and changes made to the plan during the fiscal year.

Under sections 213 and 215 of the Management and Budget Act (P.A. 431 of 1984 as amended), DTMB is authorized to issue directives relative to all motor vehicles except for those motor vehicles under the jurisdiction of the Michigan Department of Transportation (MDOT). DTMB provides these centralized services to state agencies through its organizational unit, Vehicle and Travel Services (VTS). MDOT leases some passenger vehicles and work trucks through VTS; however, it maintains its own agency-owned fleet and garage operations. This report includes inventory information on the MDOT agency-owned fleet as reported to DTMB VTS. Information on MDOT's garage operations is not included due to MDOT's separate legislative authorization for these services.

At the end of FY2011, fleet plan updates and changes that would sustain fleet reductions and fleet savings were requested from each department. Departments also reported how vehicles were assigned and justified and defined future vehicle needs. This information is used by VTS to assign appropriate vehicles for the functional need, reassign vehicles as needed, maintain fleet limits, and ensure appropriate statewide fleet controls are in place. These fleet plan submissions, in addition to VTS analysis and input, have been used to compile information for the FY2012 statewide fleet plan.

This report summarizes information at the statewide level. The Department of Technology, Management & Budget will continue to work with the legislature to meet the mutual goals of efficiently managing the statewide fleet, controlling expenditures, and greening the fleet.

## **FLEET INVENTORY**

### **FLEET DEFINITIONS**

Various factors impact the definition of the state's fleet including differing fleet definitions and interpretations, risk management requirements, fleet management responsibilities, and requirements for data use.

P.A. 431 of 1984 defines the fleet in Section 213(1)(b); "motor vehicle" means a passenger vehicle, van, minibus, truck, tractor, or other motorized vehicle.

For purposes of the State's self-insured risk management program, DTMB VTS also includes other motorized equipment under the "motorized vehicle" definition if that equipment requires insurance under the State's risk management program.

For this report, all on-road and off-road vehicles and motorized equipment covered under the State's risk management program are included in inventory. VTS maintains a comprehensive list of vehicles and equipment which allows VTS to respond to State Emergency Operations Center requests, Homeland Security requests and the Strategic National Stockpile initiative led by the Department of Community Health.

Appendix A provides a summary of total inventory reported for insurance purposes as of September 30, 2011. Vehicles may be leased through the State's leasing vendor or purchased with state funds. DTMB VTS categorizes and tracks this inventory as follows:

- Leased inventory managed by VTS
- Agency-owned vehicles managed by MDOT (under legislative authority), other agency owned vehicles approved by DTMB VTS, and other miscellaneous owned motorized equipment

Vehicles are also leased to colleges and universities at their request. Two hundred fifty-eight (258) vehicles leased by colleges and universities are included in the total fleet inventory.

Seasonal vehicles (temporary vehicles for seasonal needs less than one year) and VTS stock vehicles (vehicles awaiting assignment or sale) are not included. Vehicles shown in inventory for some departments may include duplicates due to timing of vehicle upfitting or exchange.

Data has been organized by national fleet classifications defined by the National Association of Fleet Administrators (NAFA). These classifications include on-road and off-road vehicles, non-self-propelled equipment, and heavy equipment.

Using the broadest definition of “motorized vehicles”, the total state fleet includes 11,860 vehicles and units of motorized equipment as follows:

7,307 leased vehicles (managed by VTS)  
4,553 agency-owned vehicles and heavy equipment.

These vehicles are classified as follows:

On road vehicles	8,851
Off road vehicles	2,384
Non self-propelled equipment	616
Equipment (attachments)	<u>9</u>
Total	11,860

Between September 30, 2010 and September 30, 2011, the fleet size was reduced by 189 vehicles. The leased fleet size of 7,307 vehicles remains below the target size of 7,550 vehicles.

Please see Appendix A for detail by department and description.

## **EXPENDITURE REDUCTION EFFORTS**

### **CONTROLS ON FLEET SIZE**

DTMB VTS has implemented controls on fleet size for the State's leased fleet including requirements for submission of a fleet plan by departments, identification of seasonal needs, and strict approval requirements for any additions to the state's leased fleet. Increases in the size of agency owned and leased fleets require approval from the Office of Support Services Director.

### **INFORMATION SHARING WITH DEPARTMENTS**

To assist departments in managing their fleet needs, DTMB VTS meets quarterly with each department's fleet contact and provides a detailed report which includes high and low mileage vehicles, vehicle order status, motor pool usage, accidents, personal mileage reimbursement, and maintenance reports. Using this data, VTS and the departments are able to identify mileage patterns and vehicle usage days to help determine if vehicles are fully utilized. The review also focuses on excessive maintenance costs, personal mileage reimbursement that could be reduced by use of a fleet car, and safe driving habits.

### **MOTOR POOL OPERATIONS**

DTMB VTS maintains central pools to meet the needs of state employees requiring short-term vehicle rentals of 10 days or less. These are located in Detroit, Escanaba, Lansing, the State Secondary Complex and Traverse City. DTMB VTS motor pool size and usage is monitored monthly to ensure efficient usage. In FY2012, DTMB VTS will expand the installation of its automated motor pool reservation system to Grand Rapids and Flint.

Departments are encouraged to establish motor pools to facilitate sharing of assigned vehicles within their own departments.

### **PERSONAL VEHICLE USAGE**

When in the best interest of the state, an employee may use a personal vehicle as an alternative to a state-owned vehicle. The employee reimbursement for premium mileage is the IRS standard mileage rate in effect during the fiscal year. It was \$0.50 in October, 2010; increased to \$0.51 in January, 2011; and rose to \$0.555 in July. The average per mile cost of a midsize state vehicle is used to set the standard mileage reimbursement rate. The FY2011 standard mileage reimbursement rate was \$0.365. The FY2011 cost of personal mileage reimbursement for executive branch agencies was \$10,640,515, a \$224,268 decrease from FY2010. This represents 24,431,662 miles traveled.

During FY2011, VTS began aggressively focusing on the cost of personal mileage reimbursement in their review with departments. As a result, VTS and the departments are in the process of adding vehicles to the fleet as opposed to reimbursing for personal mileage.

#### **ESTABLISHMENT OF VEHICLE TYPE TO MATCH JOB REQUIREMENT**

A key to reducing costs is the alignment of the type of vehicle needed with the actual job performed. Departments are asked not to identify specific desired makes and models but to define the functional need to be met by an assigned vehicle. An in-depth analysis of job specifications is completed which allows vehicle assignment based on these defined functional needs rather than vehicle models. DTMB VTS and the agency identify the most cost-effective solution.

#### **ELIMINATION OF UNNECESSARY VEHICLE OPTIONS**

In conjunction with reducing the number of models offered, a review is conducted of the options required for the driver to perform job-related duties. Options, including window tinting, all-wheel drive, bucket seats, and some security screen configurations, have been eliminated unless they are justified and approved by DTMB VTS.

#### **REDUCTION IN THE NUMBER OF VEHICLE MODELS OFFERED**

Based on the comparison of job specifications and vehicle types, the most appropriate makes and models to lease are identified according to the job required. Vehicle selections are made based on life cycle costs, availability of appropriate models from manufacturers, and manufacturers' ordering cycles. In FY2011, 30 models were selected compared to 39 the previous year. Nineteen (19) of the FY2011 models represent low volume, special vehicle needs.

#### **DEPARTMENT AND DRIVER AGREEMENTS**

To encourage accountability, DTMB VTS developed State Motor Vehicle Driver Agreements and department agreements. The Driver Agreements outline responsibilities of drivers who use state vehicles and equipment and are required to be signed by each driver. The department agreements define expectations for the management of the State's fleet. Departments are expected to comply with fleet policies as defined in those agreements and ensure driver compliance with specific driver policies defined by both DTMB VTS and the individual department.

In FY2011, DTMB VTS produced a short video explaining what a driver should know and be aware of when driving a state vehicle. The video was posted on the state's intranet, and drivers were encouraged to view it. Safe driving tips are regularly communicated to drivers.

## **ALTERNATIVES TO TRAVEL**

DTMB VTS continues to work with departments to identify and encourage alternatives to travel. DTMB conferencing and collaboration tools allow employees to work together in real time without face-to-face interactions, reducing travel costs. Current statewide conferencing and collaboration tools include audio conferencing, web conferencing, video conferencing, and streaming media.

## **GREENING THE FLEET**

DTMB works to reinvent Michigan by protecting our environment through these approaches:

- Complies with the requirements of the federal Energy Policy Act (EPAAct) of 1992.
- Includes hybrid vehicles in the state fleet when it is cost effective and the vehicle meets functional needs.
- Encourages vehicle drivers to refuel with alternative fuels when economically feasible.
- Encourages the use of biodiesel fuels.

Since the passage of the Energy Policy Act in 1992, DTMB VTS has complied with its requirements. DTMB maintains a website listing retail fuel locations statewide that dispense E85 ethanol and includes a list of those locations in each flex fuel vehicle.

During FY2011, 258 flex fuel vehicles were added to the fleet, replacing vehicles which run only on unleaded fuel. The State also has 23 hybrid vehicles in the fleet.

## **FUEL**

### **ALTERNATIVE FUEL**

The State currently has 3,662 flex fuel vehicles, capable of operating on either unleaded gasoline or E85 ethanol. This is an increase of 258 vehicles from 2010. In FY2011, the State purchased 54,849 gallons of E85 ethanol for the leased fleet as compared to 68,244 gallons in FY2010. Total usage may be understated because of inaccurate reporting by retail fuel sites and limited product availability statewide. Efforts to promote awareness of E85 ethanol continue, although pricing has not been competitive. Currently, 102 commercial fueling sites in Michigan sell E85.

In FY2011, approximately 65,000 gallons of B20 biodiesel were purchased for use in the state fleet from the bulk fueling location at VTS's State Secondary Complex location compared to 64,000 gallons in FY2010.

Federal Energy Policy Act legislation requires that 75% of the State's non-law enforcement, light duty vehicle fleet is comprised of flex fuel vehicles and that alternative fuels are utilized when they are reasonably available and reasonably priced. Credits for use of biodiesel may be combined with vehicle purchases to meet federal requirements. The State has complied with federal requirements in FY2011 and anticipates it will meet these targets again in FY2012.

VTS participates in the Greater Lansing Clean Cities Coalition which provides educational opportunities to keep current of cutting edge alternative fuel research and applications.

### **FUEL CONSUMPTION**

In FY2011, the State's leased fleet utilized 6,002,319 gallons of fuel, traveling 97,134,993 miles. Retail fuel prices averaged \$3.57 per gallon, compared to \$2.87 per gallon in FY2010.

In developing the FY2012 budget, VTS utilized federal Energy Information Agency (EIA) data as of July 2011 to estimate average retail fuel prices by quarter. For FY2012, the EIA estimated the annual average retail price per gallon will range from \$3.51 to \$3.71 per gallon. The FY2012 budget assumes the leased fleet will travel 98 million miles with total fuel costs estimated at approximately \$18.5 million.

### **FUEL TAXES**

Utilizing a fuel card provider, the State is able to purchase fuel exempt from state and federal excise taxes. In FY2011, the State saved \$1,027,876 in state motor fuel taxes and \$1,034,453 in federal excise taxes on its purchases.

### **UNDERGROUND STORAGE TANKS**

DTMB VTS is in the process of contracting for the removal of underground fuel storage tanks which are primarily located at Michigan State Police posts.

The tanks identified for removal were those where the cost of bulk fuel plus the cost of maintaining the tanks exceeded the price of obtaining retail fuel.

## FLEET GARAGE OPERATIONS

DTMB VTS maintains one fleet garage at the State's Secondary Complex in Dimondale. The garage is staffed by 21 full-time employees and is supplemented, when needed, by automotive mechanic students from Lansing Community College. This report does not include information related to the MDOT garages as that information is maintained by MDOT.

### GARAGE SERVICES

The VTS garage is authorized by the automotive manufacturers as a new car prep center. In addition, the garage provides full maintenance and repair services except for engine and transmission overhauls and body repairs. VTS mechanics are ASE-(Automotive Service Excellence) or state-certified. The garage maintains a parts department, including tires, push bars, lights and other specialized equipment needed by the Michigan State Police and Department of Natural Resources law enforcement. Many of these parts are not readily available at retail service centers, and the state is able to purchase parts at a sizeable discount from retail. Core services provided by the VTS garage include new car and seasonal vehicle prep, maintenance of MSP precision driving unit vehicles, and management of vehicle resale and disposal functions.

In FY2011, the garage provided the following services:

Type of Service	Count of Jobs
Preventive Maintenance	1,446
Tires	1,906
Brakes	1,333
Body and Glass	947
Miscellaneous Repairs	4,382
Assignments/Terminations/Disposals	8,160
Parts Repair/Parts Distribution	26
Towing Service and Transport	519
TOTAL	18,719

### GARAGE EXPENDITURES

In FY2011, expenditures for the State's garage were \$2.8 million. This included \$1.69 million in salary expense, \$271,000 in building and equipment depreciation, and \$547,000 in shop supplies, tires and parts.

### MOTOR POOLS

VTS garage personnel in Lansing also manage the state's five motor pool locations.

One hundred forty- three (143) vehicles are maintained in the VTS motor pools.  
Data on motor pool usage is provided below:

Motor Pool Location	Number of Rentals (FY2011)	Miles Driven (FY2011)
Detroit	3,216	601,828
Downtown Lansing	3,896	1,019,282
Escanaba	1,174	165,650
State Secondary Complex	2,098	622,540
Traverse City	2,152	190,784
