

Michigan Lyme Disease Risk

More information is available at:
www.michigan.gov/emergingdiseases

- * Lyme disease risk in this map is based on known, field confirmed populations of infected Black legged ticks or laboratory confirmed human cases.
- a) Counties labeled "endemic" are counties where infected tick populations have been confirmed - and/or - Two or more laboratory confirmed human cases have been identified with local exposure
 - b) Counties labeled "unconfirmed" are counties bordering endemic counties, but do not meet the above criteria for "endemic" counties
