

LED Street Lighting Project RFP

Questions and Answers

Issue Date: October 2, 2015

1. Can the grant funds be used for new street light installation?

No. The grant is for upgrading existing public street lights and can't be used for new street lights.

2. Can an organization or municipality submit a single proposal on behalf of all municipalities working as a regional partners?

No. Each municipality needs to apply separately. However, municipalities can indicate that they are working with other municipalities and organizations to form a regional partnership and are encouraged to submit letters of support/commitment from their partners along with their application. The application should also describe how the regional partnership will bring down the cost of LED street lights.

3. Are downtown pedestrian lighting systems eligible under this grant?

Yes. Downtown pedestrian lighting systems owned by Michigan communities or Downtown Development Authorities are eligible under this grant.
